QUESTIONS AND ANSWERS NO. 2

ISSUED ON APRIL 3, 2018

Q1	I am inquiring about the quantity required for the Leachate pump. I would think it is only the one pump but on the excel spread sheet it states 19 pumps and 484m of hoses? Can you confirm the quantity required?
A1	The quantities listed for payment items 6.102 and 6.103 within Schedule A - Schedule of Quantities and Prices are correct. The leachate pumps and associated appurtenances are to be installed for vertical gas wells VGW-01 through VGW-19. Supporting details on the gas well leachate pumps are shown on Drawing 17042-645.
