SUMMARY

Still Creek is one of the few surviving open watercourses in the City of Vancouver, located on the territory of the Musqueam Indian Band, Squamish Nation, Tsleil-Waututh Nation and Stó:lō Nation. The creek is part of the larger Still Creek - Brunette River watershed that discharges into the Fraser River in New Westminster. The study's purpose is to guide future work in the Still Creek watershed to improve the health of the waterway including physical instream habitat, riparian habitat and water quality while benefiting ecological, social and cultural values. The study will identify and describe projects that contribute to the implementation of the Still Creek Integrated Stormwater Management Plan, the Rain City Strategy and the Climate Emergency Action Plan (Big Move 6 Nature-based Carbon Sequestration). The study will inform the Renfrew Rupert Station area planning and the associated integrated water management planning components.

The key deliverables of the study include:

- A long lost/ map of potential watershed enhancement projects and sites;
- Conceptual design of an updated creek corridor daylighting concept linked with future redevelopment planning (from Renfrew St. at E 14th Ave to Highway 1 and Boundary Rd.); and
- Conceptual design of seven standalone urban watershed enhancement projects located in the public right-of-way and parks (including the four pre-defined sites/concepts from the City's Federal Natural Infrastructure Fund application).

Additionally, an Optional Task #1, the project will produce preliminary (50%) design materials for the three Still Creek enhancement projects included in the City's Federal Natural Infrastructure Fund application (refer to Table 2 of Part B - Scope of Work). These projects will be incorporated into the study, but at an accelerated pace to meet the grant funding schedule constraint of completing construction by March 2024. These projects are subject to Board of Parks and Recreation's approval.

PART A - INFORMATION AND INSTRUCTIONS

1.0 THE RFP

- 1.1 Except where expressly stated otherwise in Appendix 1 of Part C of the Request for Proposals ("RFP"): (i) no part of the RFP consists of an offer by the city to enter into any contractual relationship; and (ii) no part of the RFP is legally binding on the city.
- 1.2 The City is interested in selecting an entity, which is not, by the terms hereof, barred from submitting a Proposal, and which does submit a Proposal (each such entity, a "**Proponent**") with the capability and experience to efficiently and cost-effectively meet the objectives and requirements described in the RFP. The City currently expects to select such a Proponent and then enter into negotiations with that Proponent, which will conclude in the execution of a contract between the Proponent and the City (such a contract, an "**Agreement**"). However, the City may: (i) decline to select any Proponent; (ii) decline to enter into any Agreement; (iii) select multiple Proponents for negotiation; or (iv) enter into one or more agreements respecting the subject matter of the RFP with one or more Proponents or other entities at any time. The City may also terminate the RFP at any time.
- 1.3 The City currently intends that Proposals will be evaluated by the City in relation to their overall value, which will be assessed in the City's sole and absolute discretion. In assessing value, the City expects to consider the factors described in Section 8.0 below, among others.

PART B - SCOPE OF WORK

The scope of work stated in this Part B (collectively, the “**Scope of Work**”) IS current as of the date hereof, but may change or be refined in the course of the evaluation of Proposals or otherwise.

1.0 Background and Context

Still Creek is one of the few surviving open watercourses in the City of Vancouver, located on the territory of the Musqueam Indian Band, Squamish Nation, Tsleil-Waututh Nation and Stó:lō Nation. The creek is part of the larger Still Creek - Brunette River watershed that discharges into the Fraser River in New Westminster. To date, management of the Still Creek - Brunette River watershed has been coordinated by Metro Vancouver.

In Vancouver, the Still Creek watershed is unique because the sanitary and storm sewer networks are separated, particularly at the sewer trunk level. In addition to the separated sewer network, private property parcel connections are also separated to prevent sewage from entering Still Creek. However, over the years there have been some cross-connections. The City is actively working to investigate and address sewer cross-connections.

Within Vancouver’s portion of the watershed (refer to Figure 1), stormwater flow is directed east via storm trunk sewers, culverts and the Still Creek mainstem channel. Still Creek flows from Vancouver into Burnaby where the creek is primarily an open channel, discharging into Burnaby Lake. There are approximately three kilometres of open creek channel within Vancouver. Open creek channel reaches are located within Renfrew Ravine Park and Renfrew Community Park, and generally adjacent to Grandview Highway extending from Renfrew St. at E 14th Ave to Boundary Rd./Highway 1. Upstream of Renfrew Ravine, Still Creek is conveyed via Metro Vancouver’s storm trunk sewers that are located between Kingsway and the SkyTrain corridor. These storm trunk alignments follow the historic creek channel that was buried. The storm trunk sewers collect stormwater flow from the southern portion of the Still Creek watershed in Vancouver and a small catchment from the Central Park area in Burnaby. Downstream of Renfrew Ravine, Still Creek is conveyed through several Metro Vancouver culverts. The longest culvert conveys Still Creek along Renfrew Street, adjacent to Nootka Elementary to E 14th Ave.

While the majority of stormwater discharges into Burnaby via the Still Creek culvert at Boundary Rd./Highway 1, stormwater from a small sub-catchment of the watershed flows via City storm sewers directly into Burnaby where it discharges into the open channel of Chub Creek, joining Still Creek further east in Burnaby.

Despite the urban land use impacts and pressures on the watershed, Still Creek continues to provide ecological services and habitat. This includes supporting returning salmon in the larger Still Creek - Brunette River watershed and in recent years salmon have reached the downstream reaches of the creek within Vancouver. Notable habitat protection, enhancement planning initiatives and restoration projects have occurred in Vancouver over the previous two decades, in partnership with the City of Vancouver, Metro Vancouver, Fisheries and Oceans Canada and local community groups.

The Still Creek watershed has been studied several times in the previous two decades with different focuses, including floodplain mapping, integrated stormwater management planning and creek enhancement. Studies of the Still Creek - Brunette River watershed have historically been coordinated by Metro Vancouver with involvement from municipalities within the watershed. Table 1 lists the major relevant studies and plans prepared in the previous two decades.

The 2002 Still Creek Rehabilitation and Enhancement Study (herein called the 2002 study) is a key document that has guided enhancement through standalone projects and identified redevelopment opportunities. The 2002 study provides 10- and 50-year action plans (Figure 2) focusing on the creek alignment from Renfrew St. at E 14th Ave to Boundary Rd./Highway 1.

Enhancement project implementation over the last two decades has been supported by the City's Still Creek Greenway Enhancement Fund (herein called enhancement fund) and financial contributions from partner organizations. In 2000, the enhancement fund was established by City Council to provide a funding mechanism for enhancement and rehabilitation projects. Three major projects were completed between 2005 and 2011.

An update to the 2002 study is needed to enable effective implementation of enhancement projects in the future for several reasons including:

- Creek enhancement science and practice have evolved since 2002, including a greater focus on water quality, green rainwater infrastructure and advancements in restoration science and practice;
- City policies related to watershed planning and water management have significantly evolved since 2002, including the Council-approved Rain City Strategy, Climate Change Adaptation Strategy and Climate Emergency Action Plan;
- Land-use changes and developments which may impact 2002 concepts; and
- Construction cost estimates from 2002 are out of date.

Additionally, Council directed staff in November 2021 to initiate a planning process around the Rupert and Renfrew SkyTrain stations area. The plan falls within the Still Creek watershed and specifically within the existing open channel and culverted sections of the creek between Renfrew St. and Boundary Rd. An update to the 2002 study will provide the basis for ecological input into the area planning process, including providing enhancement concepts that may be incorporated into the integrated water management planning (also referred to as One Water) aspect of the area planning process. Enhancement concepts may be configured to help manage land use change impacts to the existing drainage infrastructure (including the creek channel as a natural drainage asset) and to

PART B - CITY REQUIREMENTS

manage flood risk. The area planning process is also supported by a separate, but parallel project (Still Creek Sewer and Watershed Baseline Assessment) that will assess sanitary sewer, storm sewer, creek channel and floodplain hydraulic conditions using a hydrologic and hydraulic model.

Finally, the City has identified five project sites and concepts for Still Creek riparian corridor enhancement and urban watershed enhancement (water quality improvement and flow attenuation) as part of the City's Federal Natural Infrastructure Fund (Infrastructure Canada) application which was submitted in 2021. The project sites are summarized in Table 2. If approved for funding, and by the Vancouver Board of Parks and Recreation, these projects would need to be implemented by March 2024. Conceptual design for four of these five sites is included in the base scope of work for this contract. Preliminary design is included as an optional task for three of the sites. Table 2 lists the scope for each site for this contract. Staff will provide an overview of the project sites and initial concepts to the successful consultant through the consultant onboarding process.

STILL CREEK REHABILITATION AND ENHANCEMENT STUDY
PART B - CITY REQUIREMENTS

The study's purpose is to guide future work in the Still Creek watershed to improve the health of the waterway including physical instream habitat, riparian habitat and water quality while benefiting ecological, social and cultural values. The study will identify and describe projects that contribute to the implementation of the Still Creek Integrated Stormwater Management Plan, the Rain City Strategy and the Climate Emergency Action Plan (Big Move 6 Nature-based Carbon Sequestration). The study will inform the Rupert Renfrew Station area planning and the associated integrated water management planning components.

2.1 The key deliverables of the study include:

- a) A long lost/ map of potential watershed enhancement projects and sites;
- b) Conceptual design of an updated creek corridor daylighting concept linked with future redevelopment planning (from Renfrew St. at E 14th Ave to Highway 1 and Boundary Rd.); and
- c) Conceptual design of seven standalone urban watershed enhancement projects located in the public right-of-way and parks (including the four pre-defined sites/concepts from the City's Federal Natural Infrastructure Fund application - refer to Table 2).

Additionally, as Optional Task #1, the project will produce preliminary (50%) design materials for the three Still Creek enhancement projects included in the City's Federal Natural Infrastructure Fund application (refer to Table 2). These projects will be incorporated into the study, but at an accelerated pace to meet the grant funding schedule constraint of completing construction by March 2024. These projects are subject to Board of Parks and Recreation's approval.

3.0 Objectives

- 1. Review and update Still Creek enhancement objectives in the context of the current science, practice and policy.
- 2. Review the current applicability and feasibility of the concepts provided in the 2002 enhancement study.
- 3. Develop an updated concept plan for full creek daylighting between Renfrew St. at 14th Ave and Boundary Rd./Highway 1.
- 4. Identify sites and develop concepts for standalone projects in the urban watershed with a focus on water quality improvement and flow attenuation (i.e. slowing down runoff reaching the creek channel). Through a review and shortlisting process, select and advance seven sites to comprehensive conceptual design (including four pre-defined sites/projects from the City's Federal Natural Infrastructure Fund application).
- 5. Summarize enhancement concepts for input into the Rupert and Renfrew Station Area planning process.

4.0 Study Area

The study area is the Still Creek watershed within the City of Vancouver (Figure 1).

The study will identify enhancement concepts at different spatial scales and it is expected that the following sub-areas would receive additional focus:

**REQUEST FOR PROPOSALS NO. PS20220205
STILL CREEK REHABILITATION AND ENHANCEMENT STUDY

6.0 Consultant Team

The consultant team must be led by a landscape architecture firm and supported by engineers with expertise in both creek habitat enhancement and green rainwater infrastructure and a biologist with proven experience in creek restoration work. It is expected that the Consultant and the Sub-Consultants (collectively, the “Consultant Team”) will be required to include at a minimum the following:

- Landscape Architect Registered Member of the British Columbia Society of Landscape Architects;
- Civil/Hydrotechnical Engineer Accredited Professional Engineer by Engineers and Geoscientists of British Columbia;

7.0 Engagement

The City of Vancouver has identified a list of project partners both internal and external that will become the project team identified in Task C and D (engagement). The City has contacted the Musqueam Indian Band, Squamish Nation and Tsleil-Waututh Nation, inviting their participation on the project team. Engagement for the enhancement study will be limited to a core team of participants provided by the City project manager and will include multi-levels of government, internal and external stakeholders and project partners. The Consultant is not responsible for contacting the Nations on the City’s behalf.

The project scope does not include public engagement. The study will be incorporated into the Rupert Renfrew Area Plan process, which will involve additional and public engagement.

For greater certainty, any information provided by the City to the Consultant, whether under the RFP or under this Agreement, including any studies, reports, plans, drawings, or specifications, is provided to the Consultant for information purposes only and may not be relied upon by the Consultant.

- 11.2 The Consultant appoints [insert name] [email address] as its representative for the purposes of this Agreement (the "Consultant's Project Manager").

13.0 TERMINATION

- 13.1 The City at any time, in its sole judgment, may, whether or not cause exists, terminate the services of the Consultant in whole or in part by giving ten days' prior written notice to the Consultant. If termination is not for cause, the Consultant will be paid for all Services properly performed to the date of the delivery of the said notice (subject to the terms of this Agreement) plus all necessary and reasonable wind-up costs incurred, if any, in closing out the Services or the part terminated.
- 13.2 Despite Section 13.1, in no event and under no circumstances will the Consultant's "necessary and reasonable wind-up costs incurred" pursuant to Section 13.1 exceed \$1,000.00 (including all taxes).

14.0 ASSIGNMENT

- 14.1 The Consultant will not assign this Agreement in whole or in part except with the prior written consent of the City, which consent will not be unreasonably withheld, delayed or conditioned. Any attempt to assign this Agreement without such consent will be void and of no effect. However, the Consultant will be permitted to assign this Agreement to any entity into, by or with which the business or assets of the Consultant have been merged, acquired, consolidated or re-organized, or any entity which purchases all or substantially all of the business or assets of the Consultant, provided always that the Consultant first provides the City with:
- (a) reasonable particulars of the transaction (permitting the City to independently verify the nature of the transaction); and
 - (b) a legally enforceable covenant from the new entity confirming that it is legally bound to the City to perform this Agreement.

15.0 CONFIDENTIALITY

- 15.1 In the course of or for the purpose of performing the Services, the Consultant will obtain or have access to information, including but not limited to technical information, financial information and business information, which is confidential to the City, and is the exclusive, world-wide property of the City and/or its suppliers and customers (collectively "**Confidential Information**"). Excluded from the definition of Confidential Information is:
- (a) information which is in, or becomes part of, the public domain, not due to the Consultant's breach of this Agreement or the Consultant's actions;

- 15.2 The Consultant will not use or reproduce the Confidential Information other than as reasonably required for the performance of the Services under this Agreement. The Consultant will not, without the prior written consent of the City given on such terms and conditions as it prescribes in its sole discretion, disclose or allow access to the Confidential Information to any person, except to only those of its own employees who have a need to know the Confidential Information solely for the provision of the Services, and who have been advised of its confidential nature and have agreed to be bound by the confidentiality and use-restriction provisions in this Section 15.0. The Consultant will take all reasonable precautions against the Confidential Information being used by or disclosed to any unauthorized person.
- 15.3 If the Consultant is required by any law, legal proceeding, or court or government order, to disclose any Confidential Information, the Consultant shall limit its disclosure of such

Confidential Information to the extent and purpose legally required, provided that prior to any disclosure the Consultant will promptly notify the City in writing of the existence and the terms, and conditions of the required disclosure and, at the City's request and expense, co-operate in obtaining a protective order or other assurance that confidential treatment and restrictions on use will be accorded such Confidential Information.

- 15.4 The City is subject to the *Freedom of Information and Protection of Privacy Act* (British Columbia), which imposes significant obligations on the City's contractors to protect all personal information acquired from the City in the course of providing services to the City. The Consultant confirms and acknowledges its obligations to comply with all obligations imposed on it pursuant to the *Freedom of Information and Protection of Privacy Act* (British Columbia) with respect to all personal information received from the City whether as part of the Confidential Information or otherwise.
- 15.5 The Consultant acknowledges that in the event of a breach by the Consultant or any of its employees of their respective confidentiality obligations pursuant to this Section 15.0, damages alone would not be an adequate remedy. The Consultant therefore agrees with the City that, in addition to and without limiting any other right or remedy it may have, the City will have the right to an immediate injunction or other available equitable relief in any court of competent jurisdiction enjoining any threatened or actual breach of such obligations.
- 15.6 The Consultant shall return all copies of the Confidential Information to the City, in all tangible forms and media, and delete all Confidential Information resident in any databases or systems, upon the earliest of the following dates:

- 15.7 This Section 15.0 shall survive the expiration or earlier termination of this Agreement.

16.0 NO PROMOTION OF RELATIONSHIP

- 16.1 The Consultant will not disclose or promote its relationship with the City, including by means of any verbal declarations, announcements, sales, marketing or other literature, letters, client lists, websites, internet domain names, press releases, brochures or other written materials (the "**Communications**") without the express prior written consent of the City (except as may be necessary for the Consultant to perform its obligations under this Agreement).
- 16.2 Furthermore, the Consultant undertakes and will cause all of its Sub-contractors to undertake not to disclose or promote its relationship with the City in any Communications in a manner which could suggest or create an association, express or implied, between the Consultant and the City. Without limiting the generality of the foregoing, the Consultant will not refer to or use any website, domain name, official emblem, logo or mascot of the City of Vancouver in any Communications, without the express prior written consent of the City.

17.3 All Deliverables will be owned solely by the City unless otherwise expressly provided herein. The City shall have the complete and unfettered right to use and deal with the Deliverables for its own benefit in any way it sees fit without limitation, and without accounting in any way to the Consultant.

17.4 The Consultant will keep accurate records and provide regular reports to the City about the Deliverables as they are created or acquired, and grant to the City access to the Deliverables at all times on reasonable notice. The Consultant will treat each Deliverable as subject to the confidentiality provisions set out in Section 15.0 unless advised otherwise by the City.

17.5 Each Deliverable, as to the whole or that portion of the Deliverable then existing, will be delivered by the Consultant to the City on the earliest of each of the following events:

- (a) the date specified in this Agreement for the delivery of such Deliverable;
- (b) immediately on the date of expiration or sooner termination of this Agreement; or
- (c) the date specified by written notice of the City requesting delivery of all or any part of the Deliverable.

17.6 The Consultant transfers to the City, free of all liens and encumbrances, ownership of each Deliverable, and assigns all of its world-wide present and future rights, title and interest in and to each Deliverable, including copyright, effective as of the date of creation or acquisition of such Deliverable by the Consultant. The Consultant irrevocably waives, in favour of the City, all moral rights in the Deliverables. The Consultant will obtain from its employees and any independent contractors, all required assignments and releases of intellectual property, and waivers of moral rights, in the Deliverables. The Consultant will not assert any rights to or interests in, or apply for or register any copyright or other rights or interests in, the Deliverables, or assist any other person in doing so. The Consultant shall provide to the City, during and after the term of this Agreement, any reasonable assistance required for the City to obtain, perfect and enforce its ownership of and rights in the Deliverables, including without limitation execution of assignments and transfers of the Deliverables. This Section does not apply to Pre-Existing Materials.

17.7 The Consultant will not incorporate any Pre-Existing Materials in any Deliverable without first:

- (a) advising the City, in writing, of the nature of the Pre-Existing Materials and their proposed use and obtaining the City's written consent to do so;
- (b) acquiring from each third-party owner of such Pre-Existing Materials, a fully paid-up, perpetual, non-exclusive license, in writing, for the City to use the Pre-Existing Materials as part of the Deliverable; and
- (c) granting, in writing, to the City with respect to such Pre-Existing Materials that the Consultant owns, a fully paid-up, perpetual, non-exclusive license to use the Pre-Existing Materials as part of the Deliverable.

17.8 The Consultant represents and warrants that the Deliverables will not infringe, misappropriate or misuse any copyright, patent, trade-mark, trade secret, or confidential or proprietary information of a third party. The Consultant shall defend, indemnify and hold the City harmless from and against any and all damage, liability, cost and expense incurred by the City in connection with any claim by a third party that a Deliverable infringed, misappropriated or misused its copyright, patent, trade-mark, trade secret, or confidential or proprietary information.

19.1 The Consultant agrees that during the Term the Consultant will not engage in any conduct which would or might put the interests of the City into conflict with the interests of any other person, whether or not a client of the Consultant's. Without limiting the general scope of this Section 19.1 and by way of example only, the Consultant is prohibited from and will not provide any services which assist or could be seen to be assisting any person in responding to a request for proposal or invitation to tender, or otherwise giving that person an unfair competitive advantage over other proponents or tenderers responding to a request for proposal or invitation to tender by the City. The Consultant now acknowledges that a breach of this Section 19.1 could constitute not only a breach of this Agreement but also a violation of the *Competition Act* (Canada) and *Criminal Code* of Canada, and accordingly, could be punishable as a crime (as well as a breach of contract).

19.2 The Consultant now confirms and warrants that there is no officer, director, shareholder, partner or employee or other person related to the Consultant's organization (a "**person having an interest**") or any spouse, business associate, friend or relative of a person having an interest who is:

For the purposes of this Section, an "**Unavoidable Delay**" means any circumstances beyond the reasonable control of the party trying to perform (such as, for example, acts of God, war or other strife or governmental action) but expressly excludes any and all delays caused by the Consultant's lack of financial resources; the Consultant's insolvency ; strikes, lockouts or other withdrawals of services arising out of any

labour dispute involving the City, the Consultant or a Sub-contractor; or governmental action taken in the enforcement of any law specifically against the Consultant or its Sub- Consultants. If an Unavoidable Delay occurs, the non-performing party will, as soon as possible after the occurrence of the Unavoidable Delay, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of its obligations under this Agreement.

26.0 GENERAL

- 26.1 **No Waiver.** No action or failure to act by the City shall constitute a waiver of any right or duty under this Agreement, or constitute an approval or acquiescence in any breach hereunder, except as may be specifically agreed in writing by the City.
- 26.2 **Severability.** The invalidity, illegality or unenforceability of any portion or provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. - 26.4 **Further Assurances.** Each Party shall execute such further and other documents and instruments and do such further and other acts as may be necessary to implement and carry out the provisions and intent of this Agreement.

A1.6 Insurance Requirements Independent of Agreement Obligations

Neither the providing of insurance by the Consultant or the Sub-contractors in accordance with this Agreement, nor the insolvency, bankruptcy or the failure of any insurance company to pay any claim accruing, will be held to relieve the Consultant from any other provisions of this Agreement with respect to liability of the Consultant or otherwise.
