

REQUEST FOR EXPRESSION OF INTEREST "RFEOI" PS20130049
PARTNERSHIP FOR VIVA VANCOUVER 2013 (800 ROBSON STREET)

QUESTIONS AND ANSWERS NO.1

ISSUED ON FEBRUARY 21, 2013

Q1	<p>Is it possible to have a clarification of what is meant by: innovative conceptual designs for a seasonal public space project on 800-block Robson Street in 2013?</p> <p>I am particularly interested in understanding whether this is about HOW to block off the street section in an innovative way, or if you are asking for a project to take place within the already blocked off section of street.</p>
A1	<p>While VIVA is primarily focused on the public space experience within the blocked off section of road space, this does not preclude ideas/submissions that relate more directly to how the street may be 'innovatively' blocked off.</p>
Q2	<p>We're taking a look at the Viva Vancouver information. I'm wondering if the City is able to provide computer files of the 800 Robson area.</p> <p>At the conceptual design level a SketchUp model would be particularly useful. I would also be interested in an AutoCAD model of the area if one is available to the public.</p> <p>Is it possible to access a link on the City website where I could download this information?</p>
A2	<p>There is an AutoCad file available as Attachment # 1, contact purchasing@vancouver.ca to obtain a copy the file. Please note that AutoCad software will be required to open this file.</p>
