

REQUEST FOR EXPRESSION OF INTEREST NO. PS20211041

GRANVILLE BRIDGE STRUCTURAL REPAIR & RECOATING

QUESTIONS AND ANSWERS NO. 1

ISSUED ON JULY 30, 2021

<b>Q1</b>	Please confirm that our submittal will be as per our expertise (scaffold/hoarding/painting) or if the expectation is for us to partner with welder/fabricator?
<b>A1</b>	<b>See Addendum No. 1 for details.</b>
<b>Q2</b>	Can you please provide Schedule 2 in a writable (word) document?
<b>A2</b>	<b>See Addendum No. 1 for details.</b>
<b>Q3</b>	<p>Under “<i>Description of Products and Services</i>”, the minimum qualifications indicate the desire to have a very specialized contractor versus a General Contract that has previous project experience completing the outlined scope with a mixture of qualified subcontractors and self-perform employees.</p> <p>If this is not the intent, would the City consider adjusting the qualifications to include General Contractors?</p>
<b>A3</b>	<b><i>The intent of the prequalification is directed towards coating contractors meeting the requirements of the specified qualifications who, if prequalified, will be invited to respond to an upcoming structural repair and recoating construction tender as prime contractor. The specified structural steel fabrication and welding qualifications may be covered by sub-contractors on the contractor’s team. Refer to addendum 1 for clarification</i></b>
