CONTRACTOR FOR NEIGHBOURHOOD ENERGY UTILITY (NEU) FALSE CREEK ENERGY
CENTRE (FCEC) SITE PREPARATION FOR CONSTRUCTION

QUESTIONS AND ANSWERS NO. 5 REV

ISSUED ON: November 30, 2021

Q5.1	<p>We assume that the supply of the neoprene pads and anchor rods are the only items required for this scope of work on our end.</p> <p>Shall we allow for supply of the rest of the base plate assembly shown on drawings 028-12838-000 and 028-12818-000 by York International Corporation or will this kit will be supplied directly by them?</p>
A5.1	<p>The supply of the neoprene pads and anchor rods are the only items required for this scope of work. The base plate assembly will be attached to the feet of the chillers when they arrive. Note that the marking up and drilling of the holes is also included in this scope of work.</p> <p>The supply of the neoprene pad (including the rest of the base plate assembly shown on drawings 028-12838-000 and 028-12818-000) and anchor rods <u>are required for this scope of work</u> by the Contractor. The tube sheet and feet (mounting plate) are the only components supplied by York International Corporation.</p>
