**1.0 BACKGROUND**

- 1.1 This Short Form - Request for Proposal (“SF-RFP”) identifies a business opportunity for the successful Proponent to review the City’s existing Shared Vehicle Agreement (SVA) and supporting bylaws.
- 1.2 The City has a keen interest in ensuring its bylaw is up-to-date with best practices. If necessary where amendments to the Shared Vehicle Agreement and supporting bylaws are required to meet broad participation by developers and car share service providers, recommendations are to be relevant, clear, consistent, and effective.

**2.0 SUSTAINABILITY**

- 2.1 The City’s Procurement Policy and related Supplier Code of Conduct found at <http://vancouver.ca/fs/bid/epp/index.htm> align the City’s overall approach to procurement with its corporate social, environmental and economic sustainability values and goals. It establishes a commitment to maximize benefits to the environment through product and service selection, to ensure safe and healthy workplaces, where human and civil rights are respected, and to support an environmentally sustainable local economy, whenever possible. In doing so, the Policy ensures incorporation of sustainability and ethical considerations as integral evaluation components in best-value supply selection.
- 2.2 Vendors are to provide environmentally sensitive products or services wherever possible. Where there is a requirement that the Vendor supplies materials, and where such materials may cause adverse effects, the Proponent is to indicate the nature of the hazard in its proposal. Task 4: Based on the findings of Tasks 2 and 3 develop recommendations to amend the City's Shared Vehicle Agreement (and supporting bylaws as required) to ensure that a revised agreement:

- Offers flexibility and consideration for other models, not currently offered in the City.
- Offers certainty to the City, developers and car share organizations around obligations and objectives and is legally sound.
- Considers a wide range of mechanisms to deliver car share services in exchange for the incentives offered in the Parking Bylaw (this could include monetary obligations for vehicles and/or operating funds, memberships to residents, legal obligations, etc.) while ensuring that mechanisms are administratively achievable and enforceable.

Task 5: Prepare a draft report and final report documenting all assumptions, procedures, findings, recommendations and conclusions. In addition, the draft and final report are to include an amended copy of the Shared Vehicle Agreement (and supporting bylaws as required) incorporating those recommendations as identified in Task 4. **Appendix A  
Scope of Work**

**1.0 Introduction**

The basic direction for transportation in the City of Vancouver (City) was set with Council's adoption of CityPlan (1995), the Liveable Region Strategic Plan (1995) and the Regional Transportation Plan (1994). Through those processes residents and Council agreed on a direction for transportation for the City: "reducing reliance on the car." The details of how that direction was to be achieved were the subject of the City of Vancouver Transportation Plan (1997).

An initiative of the Transportation Plan (1997) in support of: "reducing reliance on the car," was transportation and parking demand management through the provision of car sharing. In its Parking Requirement Standards for Multiple Residential Use (2005) report to Council, staff sought approval for applying a reduction in residential parking supply with the provision of a car share vehicle. In the same year amendments to the Parking Bylaw allowed for a 3:1 reduction in required residential parking supply with the provision of a car share vehicle. Subsequently, changes to the Parking Bylaw have since offered a greater reduction in required residential parking supply (from 3:1 to 5:1) and later even greater incentives for rental developments.

An early example of an application of car sharing was through the development process for the Southeast False Creek (SEFC) lands. Provision for car sharing was implied and encouraged through the SEFC Policy Statement "towards a sustainable urban neighbourhood," and subsequent Official Development Plan. At the rezoning stage of the development approval process, car sharing was made a requirement through the Green Building Strategy (2006). That requirement ultimately formed the basis of the current "Shared Vehicle Agreement" that has since been applied to several developments for the provision of car share.

**2.0 Background**

Since development and implementation of the Shared Vehicle Agreement, the City has been challenged with changes to the car share market. At the time the Shared Vehicle Agreement was first contemplated (as a direct result of amendments to the Parking Bylaw) only the Cooperative Auto Network was operating in the City and the agreement was adapted to suit. Presently there are two additional car share service providers in the City whose business and operating models do not entirely conform to the business and operating model on which the original policy and bylaws were founded. Consequently the Shared Vehicle Agreement must be adapted further.
