

REQUEST FOR PROPOSALS NO. PS20181129

PROVISION OF ADVANCED TRANSPORTATION CONTROLLER (ATC) SOLUTION

QUESTIONS AND ANSWERS NO. 1

ISSUED ON AUGUST 13, 2018

Q1	Could you please confirm what type of central management system the City is currently using? We need the information to confirm compatibility with the product we will be submitting.
A1	The City is planning to integrate a fully NTCIP compliant central to operate the ATC's. What is intended however, is that the Proponent's ATC utilizes the standard NTCIP protocol and MIB's as indicated in the PRL to permit operability with multiple central systems utilizing the same PRL.
