PART B - CITY REQUIREMENTS

1.0 Introduction

- 1.1 The City of Vancouver is requesting proposals from qualified consultants to provide on-call hydrogeological consulting services to provide the City with expert independent review and advice services to identify, assess and mitigate potential impacts to the hydrogeological regime from works proposed by development in the Cambie Corridor.
- 1.2 A particular focus of this work is the [Oakridge Centre Redevelopment](#), a large development taking place within the Cambie Corridor. Oakridge Centre is located on a 28 acre site at the southwest corner of Cambie Street and 41st Avenue, adjacent to Oakridge-41st Avenue Canada Line Station. It is Vancouver's only Municipal Town Centre in the Metro Vancouver Regional Growth Strategy.
- 1.3 Given the large site and shallow depth of the water table in this area, large volumes of groundwater must be pumped from the site to permit lowering of the water table and construction of sub-surface infrastructure as part of redevelopment of the site. In order to manage groundwater at the site, and meet the City's groundwater requirements, the developer's consultant team has proposed a re-injection system, pumping groundwater from the site and re-injecting it into the ground approximately 1km to the west.
- 1.4 The City of Vancouver requires expert peer review and advice services to identify, assess and mitigate the potential risks and impacts associated with the groundwater extracted from the Oakridge Centre site and re-injected elsewhere. These services shall include a review of available background data and information that the City holds related to the hydrogeology of the area, a review of the hydrogeological model prepared by the consultants retained by the Oakridge Development Team and subsequently providing on-call services to review and provide advice on data, designs and other technical documentation. Please refer to the following sections for further details regarding the background, scope of services and deliverables.

2.0 Background

- 2.1 The Quadra Sands Aquifer underlies the Oakridge Centre and much of the Cambie Corridor. Groundwater from this aquifer has been pumped continuously at the Oakridge site since 1959 as part of an 'open loop' geothermal system, where groundwater is extracted to cool the building. It is currently discharged to the sewer after use (as part of a once-through cooling system). As a result, the groundwater elevation at and around the site has been permanently and artificially lowered. Critical infrastructure, including the Canada Line, has been constructed with the expectation that groundwater elevations are not going to rise above this level in the future.
- 2.2 Oakridge Centre is being redeveloped into a major 4.5 million square foot hub of retail, residential, office, parks and civic space. The new Oakridge Vancouver development will be home to approximately 6,000 residents and 3,000 creative economy workers.
- 2.3 In order to permit construction at the Oakridge site, dewatering wells will be needed to pump groundwater from the site as a temporary measure during construction. This will require pumping rates higher than current pumping rates, and result in higher volumes of water during the anticipated six year construction period. Following construction, pumping will continue at a lower rate to maintain the artificially lowered groundwater level.
- 2.4 Staff has required that the developer of the Oakridge project produce a Groundwater Management Plan to describe how groundwater will be managed during construction, as well as post-construction over the long term.

REQUEST FOR PROPOSAL NO. PS20181673
HYDROGEOLOGICAL CONSULTING SERVICES FOR OAKRIDGE
GROUNDWATER MANAGEMENT PROJECT

PART B - CITY REQUIREMENTS

- 2.5 Central to this plan is preventing groundwater from being discharged into the sewer system, as there is limited capacity within the sewer system to accommodate the increased flows that will be generated during construction, and on an ongoing basis. Staff are also looking for ways to ensure that groundwater is treated as a precious resource rather than a nuisance, and is managed at the city in a sustainable manner. These actions are consistent with the Cambie Corridor Groundwater Bulletin and amendments to the Zoning and Development By-law passed by council on July 11, 2018 and July 24, 2018, respectively.
- 2.6 A number of options have been investigated to manage excess groundwater from the Oakridge site, such as constructing a separated sewer along Cambie Street or Heather Street to the Fraser River. Discarded options had high capital and/or operating costs, the delivery timescales were too far out of step with the construction schedule at the Oakridge site, or the options had limited benefits in terms of meeting other City resilience and sustainability objectives.
- 2.7 The preferred groundwater management strategy is to pump the groundwater from the site and re-inject it back into the aquifer a suitable distance off-site. This approach is considered to be a more environmentally sustainable approach as groundwater would not be wasted by discharging it to the sewer, however this approach has not been implemented within the City of Vancouver previously and the risks and impacts associated with these works must be assessed and mitigated given the urban nature of the area and planned development at the Oakridge Centre site and the wider Cambie Corridor.
- 2.8 A re-injection location under consideration is to the west of Oakridge Centre, in the vicinity of Montgomery Park, approximately 1km west of the Oakridge redevelopment site. The re-injection location, along with the Oakridge Centre site is shown in Figure 1 below.

Figure 1: Oakridge Centre site and Re-injection Location under consideration

- 2.9 Four test wells were drilled in August 2018 around the perimeter of Montgomery Park, and drilling for a further five test wells were completed Sept-Oct 2018. The data from these wells will be analyzed by hydrogeologists retained by the Oakridge Development Team. They plan to incorporate this data into a hydrogeological model that has been built to assess the suitability of groundwater extraction and re-injection for the project. The developer's hydrogeologist

GROUNDWATER MANAGEMENT PROJECT

PART B - CITY REQUIREMENTS

shall use this data and model outputs to make a recommendation to the City on the suitability of re-injection in this area.

- 2.10 The hydrogeological model has been developed using Visual MODFLOW and MODFLOW FLEX. The model simulates the groundwater flow over the recharge area of the Quadra Sands Aquifer that will be captured by the Oakridge extraction wells (approx. 12 km by 6 km region). The model has been calibrated to simulate site (Oakridge) groundwater conditions using a series of transient simulations, and the calibrated model used to predictively determine the groundwater extraction rates required to adequately dewater during construction activities as well as extraction rates required to permanently maintain groundwater levels post construction. The model is also being used to predictively quantify changes in groundwater flow and mounding effects during groundwater re-injection.
- 2.12 The Oakridge Centre redevelopment is taking place within the wider context of the [Cambie Corridor Plan](#), a framework to guide change and growth in this area over the next 30 years. In anticipation of development taking place throughout the Cambie Corridor and the Oakridge Town Centre area in particular, the City commissioned a Hydrogeological Desktop study, published April 2018, which assessed the groundwater aquifer underlying the Oakridge Municipal Town Center area. This study included a review of existing background reports, mapping locations and extent of contaminated sites and wells, and identification of infiltration/recharge areas to support the city's Integrated Rainwater Management Plan (IRMP). The Hydrogeological Desktop Study will be provided as part of the background data package to the successful bidder.
- 2.13 Identified within the April 2018 Hydrogeological Desktop Study is the presence of a contaminated ground plume to the east of the Oakridge Centre site. The groundwater was contaminated by dry-cleaning solvent (perchloroethylene) from a former dry cleaner located on the east side of Cambie Street between 42nd and 43rd Avenues. To mitigate the risk of contaminant migration, additional off-site wells, located within the Cambie Street Boulevard have been proposed to intercept and treat the groundwater to remove this contaminant. It is currently uncertain whether this will be treated and re-injected, treated and discharged to the sewer system, or discharged to the sewer system directly (and treated through dilution). Additional potential sources of contamination registered with the BC Sites Registry exist in close proximity to the Oakridge Centre site, and the potential impact of these contaminated sites on the quality of extracted groundwater must be considered.
- 2.14 In parallel to the efforts to assess the suitability of groundwater extraction and re-injection, the City is considering the potential of utilizing the groundwater from the Oakridge Centre site as a non-potable water supply for a District Scale system serving a number of sites to the north and west of Oakridge Centre. These efforts have the potential to use groundwater for landscape irrigation, toilet flushing and other non-potable purposes. This may reduce the volume of water re-injected into the aquifer over the long term.

6.0 CHANGES TO SCOPE OF SERVICES

- 6.1 The City's Project Manager may, from time to time and at any time on prior written notice to the Consultant, vary the scope of Services to be provided by the Consultant. In that case and where this Agreement contains delivery dates and/or limits as to fees or disbursements (or a defined "Maximum Fees and Disbursements") for all or any part of the Services, such delivery dates and/or limits will be adjusted as agreed to by both Parties in writing, and failing agreement, as reasonably determined by the City's Project Manager.
- 6.2 Should the Consultant consider that any request or instruction from the City's Project Manager constitutes a change in the scope of Services, the Consultant will provide the City's Project Manager with notice in writing within ten days of such request or instruction. If the Consultant does not deliver written notice to the City within the time period specified, the City will not be obligated to make any payments of additional fees, disbursements or out of pocket expenses to the Consultant.
- 6.3 The City's Project Manager will consider the Consultant's written notice (if any) within a further ten days of receipt of the Consultant's notice and determine and advise as to whether the request constitutes a change in the scope of the Services and, if necessary, the method by which the variation will be scoped and reimbursed. If the City determines that the professional fees payable to the Consultant should be increased due to an increase in the scope of the Services then any such increases will be based on the hourly rates set out in Section [insert] of the Proposal.

7.0 RELEASE AND INDEMNIFICATION

- 7.1 The Consultant now releases the City, its officials, officers, employees and agents from all costs, losses, damages and expenses, including those caused by personal injury, death, property damage, loss and economic loss arising out of, suffered or experienced by the Consultant, its Sub-contractors, and their respective officers, employees and agents in connection with their performance of the Services under this Agreement.

However, the Consultant will be permitted to assign this Agreement to any entity into, by or with which the business or assets of the Consultant have been merged, acquired, consolidated or re-organized, or any entity which purchases all or substantially all of the business or assets of the Consultant, provided always that the Consultant first provides the City with:

- (a) reasonable particulars of the transaction (permitting the City to independently verify the nature of the transaction); and
- (b) a legally enforceable covenant from the new entity confirming that it is legally bound to the City to perform this Agreement.

15.0 CONFIDENTIALITY

15.1 In the course of or for the purpose of performing the Services, the Consultant will obtain or have access to information, including but not limited to technical information, financial information and business information, which is confidential to the City, and is the exclusive, world-wide property of the City and/or its suppliers and customers (collectively "**Confidential Information**"). Excluded from the definition of Confidential Information is:

- (a) information which is in, or becomes part of, the public domain, not due to the Consultant's breach of this Agreement or the Consultant's actions;
- (b) information which was previously in the Consultant's possession and did not originate from the City; and
- (c) information which lawfully becomes available to the Consultant from a third party not under an obligation of confidence to the City regarding such information.

15.2 The Consultant will not use or reproduce the Confidential Information other than as reasonably required for the performance of the Services under this Agreement. The Consultant will not, without the prior written consent of the City given on such terms and conditions as it prescribes in its sole discretion, disclose or allow access to the Confidential Information to any person, except to only those of its own employees who have a need to know the Confidential Information solely for the provision of the Services, and who have been advised of its confidential nature and have agreed to be bound by the confidentiality and use-restriction provisions in this Section 15.0. The Consultant will take all reasonable precautions against the Confidential Information being used by or disclosed to any unauthorized person.

15.3 If the Consultant is required by any law, legal proceeding, or court or government order, to disclose any Confidential Information, the Consultant shall limit its disclosure of such Confidential Information to the extent and purpose legally required, provided that prior to any disclosure the Consultant will promptly notify the City in writing of the existence and the terms, and conditions of the required disclosure and, at the City's request and expense, cooperate in obtaining a protective order or other assurance that confidential treatment and restrictions on use will be accorded such Confidential Information.

15.4 The City is subject to the *Freedom of Information and Protection of Privacy Act* (British Columbia), which imposes significant obligations on the City's contractors to protect all personal information acquired from the City in the course of providing services to the City. The Consultant confirms and acknowledges its obligations to comply with all obligations imposed on it pursuant to the *Freedom of Information and Protection of Privacy Act* (British

- 15.5 The Consultant acknowledges that in the event of a breach by the Consultant or any of its employees of their respective confidentiality obligations pursuant to this Section 15.0, damages alone would not be an adequate remedy. The Consultant therefore agrees with the City that, in addition to and without limiting any other right or remedy it may have, the City will have the right to an immediate injunction or other available equitable relief in any court of competent jurisdiction enjoining any threatened or actual breach of such obligations.
- 15.6 The Consultant shall return all copies of the Confidential Information to the City, in all tangible forms and media, and delete all Confidential Information resident in any databases or systems, upon the earliest of the following dates:
- (a) completion of the Services;
 - (b) expiration or earlier termination of this Agreement; and
 - (c) written request of the City for return of the Confidential Information;

provided that the Consultant shall have the right to retain one copy of the Confidential Information solely for archival purposes or as otherwise may be required by law, subject to its ongoing confidentiality and restricted use obligations.

- 15.7 This Section 15.0 shall survive the expiration or earlier termination of this Agreement.

16.0 NO PROMOTION OF RELATIONSHIP

- 16.1 The Consultant will not disclose or promote its relationship with the City, including by means of any verbal declarations, announcements, sales, marketing or other literature, letters, client lists, websites, internet domain names, press releases, brochures or other written materials (the "Communications") without the express prior written consent of the City (except as may be necessary for the Consultant to perform its obligations under this Agreement).
- 16.2 Furthermore, the Consultant undertakes and will cause all of its Sub-contractors to undertake not to disclose or promote its relationship with the City in any Communications in a manner which could suggest or create an association, express or implied, between the Consultant and the City. Without limiting the generality of the foregoing, the Consultant will not refer to or use any website, domain name, official emblem, logo or mascot of the City of Vancouver in any Communications, without the express prior written consent of the City.

- (d) any other items identified in this Agreement as deliverables;
(collectively, the "Deliverables").
- 17.2 Deliverables are deemed not to include:
- (a) any item not required to be produced by the Consultant or supplied to the City as part of or together with the Services, provided that if the City has paid or is liable to pay for any portion of such item's creation, production, acquisition or collection then such item shall be deemed to be a Deliverable;
 - (b) any item produced as a result of the Services, which is specified in this Agreement as being excluded from the Deliverables category; and
 - (c) any item which pre-existed the effective date of this Agreement, that is owned by a third party or that is used by the Consultant as part of the services provided to any of its other customers (the "Pre-Existing Materials").
- 17.3 All Deliverables will be owned solely by the City unless otherwise expressly provided herein. The City shall have the complete and unfettered right to use and deal with the Deliverables for its own benefit in any way it sees fit without limitation, and without accounting in any way to the Consultant.
- 17.4 The Consultant will keep accurate records and provide regular reports to the City about the Deliverables as they are created or acquired, and grant to the City access to the Deliverables at all times on reasonable notice. The Consultant will treat each Deliverable as subject to the confidentiality provisions set out in Section 15.0 unless advised otherwise by the City.
- 17.5 Each Deliverable, as to the whole or that portion of the Deliverable then existing, will be delivered by the Consultant to the City on the earliest of each of the following events:
- (a) the date specified in this Agreement for the delivery of such Deliverable;
 - (b) immediately on the date of expiration or sooner termination of this Agreement; or
 - (c) the date specified by written notice of the City requesting delivery of all or any part of the Deliverable.
- 17.6 The Consultant transfers to the City, free of all liens and encumbrances, ownership of each Deliverable, and assigns all of its world-wide present and future rights, title and interest in and to each Deliverable, including copyright, effective as of the date of creation or acquisition of such Deliverable by the Consultant. The Consultant irrevocably waives, in favour of the City, all moral rights in the Deliverables. The Consultant will obtain from its employees and any independent contractors, all required assignments and releases of intellectual property, and waivers of moral rights, in the Deliverables. The Consultant will not assert any rights to or interests in, or apply for or register any copyright or other rights or interests in, the Deliverables, or assist any other person in doing so. The Consultant shall provide to the City, during and after the term of this Agreement, any reasonable assistance required for the City to obtain, perfect and enforce its ownership of and rights in the Deliverables, including without limitation execution of assignments and transfers of the Deliverables. PART D - FORM OF AGREEMENT

-
- 17.7 The Consultant will not incorporate any Pre-Existing Materials in any Deliverable without first:
- (a) advising the City, in writing, of the nature of the Pre-Existing Materials and their proposed use and obtaining the City's written consent to do so;
 - (b) acquiring from each third-party owner of such Pre-Existing Materials, a fully paid-up, perpetual, non-exclusive license, in writing, for the City to use the Pre-Existing Materials as part of the Deliverable; and
 - (c) granting, in writing, to the City with respect to such Pre-Existing Materials that the Consultant owns, a fully paid-up, perpetual, non-exclusive license to use the Pre-Existing Materials as part of the Deliverable.
- 17.8 The Consultant represents and warrants that the Deliverables will not infringe, misappropriate or misuse any copyright, patent, trade-mark, trade secret, or confidential or proprietary information of a third party. The Consultant shall defend, indemnify and hold the City harmless from and against any and all damage, liability, cost and expense incurred by the City in connection with any claim by a third party that a Deliverable infringed, misappropriated or misused its copyright, patent, trade-mark, trade secret, or confidential or proprietary information.
- 18.0 NOTICES**

- 19.0 NO CONFLICT OF INTEREST**
- 19.1 The Consultant agrees that during the Term the Consultant will not engage in any conduct which would or might put the interests of the City into conflict with the interests of any other person, whether or not a client of the Consultant's. Without limiting the general scope of this Section 19.1 and by way of example only, the Consultant is prohibited from and will not provide any services which assist or could be seen to be assisting any person in responding to a request for proposal or invitation to tender, or otherwise giving that person an unfair competitive advantage over other proponents or tenderers responding to a request for proposal or invitation to tender by the City. The Consultant now acknowledges that a breach of this Section 19.1 could constitute not only a breach of this Agreement but also a violation of the *Competition Act* (Canada) and *Criminal Code* of Canada, and accordingly, could be punishable as a crime (as well as a breach of contract).
- 19.2 The Consultant now confirms and warrants that there is no officer, director, shareholder, partner or employee or other person related to the Consultant's organization (a "person having an interest") or any spouse, business associate, friend or relative of a person having an interest who is:

- 20.1 If the Consultant is a non-resident of Canada as defined in Canadian income tax legislation, the City may withhold from all monies payable under this Agreement such amounts as set out in Canadian income tax legislation, unless a Canada Revenue Agency waiver has been provided to the City within the time limit required under the Canada Revenue Agency administrative guidelines as in effect from time to time and, in any event, prior to payment of an invoiced amount.
- 20.2 The City shall receive full credit under this Agreement for monies withheld as of and from the date of the withholding and no interest will be payable by the City on sums withheld and later paid directly to the Consultant.
- 20.3 The Consultant shall indemnify the City for any losses, damages or expenses incurred by the City as a result of the Consultant's failure to properly disclose to the City its non-resident status, as defined in Canadian income tax legislation.

PART D - FORM OF AGREEMENT

25.0 TIME FOR PERFORMANCE

- 25.1 **Time of the Essence.** Time shall be of the essence of this Agreement.
- 25.2 **Unavoidable Delay.** Notwithstanding Section 25.1, except for the performance of obligations to pay money, the time periods for the City and the Consultant to perform under this Agreement will be extended for periods of time during which their performance is delayed or prevented due to an Unavoidable Delay. For the purposes of this Section, an “**Unavoidable Delay**” means any circumstances beyond the reasonable control of the party trying to perform (such as, for example, acts of God, war or other strife or governmental action) but expressly excludes any and all delays caused by the Consultant’s lack of financial resources; the Consultant’s insolvency ; strikes, lockouts or other withdrawals of services arising out of any labour dispute involving the City, the Consultant or a Sub-contractor; or governmental action taken in the enforcement of any law specifically against the Consultant or its Sub- Consultants. If an Unavoidable Delay occurs, the non-performing party will, as soon as possible after the occurrence of the Unavoidable Delay, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of its obligations under this Agreement.

26.0 GENERAL

- 26.1 **No Waiver.** No action or failure to act by the City shall constitute a waiver of any right or duty under this Agreement, or constitute an approval or acquiescence in any breach hereunder, except as may be specifically agreed in writing by the City.
- 26.2 **Severability.** The invalidity, illegality or unenforceability of any portion or provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void portion or provision shall be deemed severed from this Agreement and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion or provision held to be void. The Parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken position.
- 26.3 **Remedies Cumulative.** The remedies of the Parties provided for in this Agreement are cumulative and are in addition to any remedies available to the Parties at law or in equity. No remedy will be deemed to exclude or restrict the right of a Party to any other remedies against the other Party and a Party may from time to time have recourse to one or more of the remedies specified in this Agreement or at law notwithstanding the termination of this Agreement.
- 26.4 **Further Assurances.** Each Party shall execute such further and other documents and instruments and do such further and other acts as may be necessary to implement and carry out the provisions and intent of this Agreement.
- 26.5 **Entire Agreement.** The Contract Documents constitute the entire agreement between the Parties with respect to the subject matter hereof, and supersede all previous communications, representations and agreements, whether oral or written, with respect to the subject matter hereof.

A1.5 Insurance Requirements Additional to any other Requirements

The Consultant and each of its Sub-contractors will provide, at its own cost, any additional insurance which it is required by law to provide or which it considers necessary.

A1.6 Insurance Requirements Independent of Agreement Obligations
