PART A - INFORMATION AND INSTRUCTIONS

**SUMMARY**

The City of Vancouver Engineering Services (the City) is seeking consulting services to complete a wiring standards risk assessment analysis of the City's streetlight poles system. Details of the City's objectives and requirements to which the RFP relates are set out in Part B of the RFP.

**PART A – INFORMATION AND INSTRUCTIONS**

**1.0 THE RFP**

- 1.1 Except where expressly stated otherwise in Appendix 1 of Part C of the Request for Proposals ("RFP"): (i) no part of the RFP consists of an offer by the city to enter into any contractual relationship; and (ii) no part of the RFP is legally binding on the city.
- 1.2 The City is interested in selecting an entity, which is not, by the terms hereof, barred from submitting a Proposal, and which does submit a Proposal (each such entity, a "Proponent") with the capability and experience to efficiently and cost-effectively meet the objectives and requirements described in the RFP. The City currently expects to select such a Proponent and then enter into negotiations with that Proponent, which will conclude in the execution of a contract between the Proponent and the City (such a contract, an "Agreement"). However, the City may: (i) decline to select any Proponent; (ii) decline to enter into any Agreement; (iii) select multiple Proponents for negotiation; or (iv) enter into one or more agreements respecting the subject matter of the RFP with one or more Proponents or other entities at any time. The City may also terminate the RFP at any time.
- 1.3 The City currently intends that Proposals will be evaluated by the City in relation to their overall value, which will be assessed in the City's sole and absolute discretion. In assessing value, the City expects to consider the factors described in Section 8.0 below, among others.
- 1.4 No bid security is required from Proponents in connection with the submission of Proposals because no Proposal will be deemed to be an irrevocable or otherwise binding legal offer by a Proponent to the City. The legal obligations of a Proponent that will arise upon the submission of its Proposal will be limited to the terms and conditions stated under the heading "Legal Terms & Conditions" in Appendix 1 to the Part C - Form of Proposal.
- 1.5 The execution of an Agreement may be contingent on funding being approved, and the relevant Proposal being approved, by the Vancouver City Council.
- 1.6 The RFP consists of four parts, plus appendices:
- (a) **PART A - INFORMATION AND INSTRUCTIONS:** This part is intended to serve as a guide to the RFP process for Proponents.
  - (b) **PART B - SCOPE OF WORK:** This part describes the subject matter of the RFP, in respect of which the City invites Proposals.
  - (c) **PART C - FORM OF PROPOSAL:** This is the form in which the Proposal should be submitted.
  - (d) **PART D - FORM OF AGREEMENT:** This part contains a model Agreement (the "Form of Agreement"). Any Agreement resulting from the RFP is expected to be substantially in the form of the Form of Agreement.

more agreements respecting the subject matter of the RFP with any entity or entities at any time. Without limiting the foregoing, the City may reject any Proposal by a Proponent that has a conflict of interest, has engaged in collusion with another Proponent or has otherwise attempted to influence the outcome of the RFP other than through the submission of its Proposal.

**9.0 CITY POLICIES**

9.1 The City's Procurement Policy, Ethical Purchasing Policy and related Supplier Code of Conduct found at <http://vancouver.ca/doing-business/selling-to-and-buying-from-the-city.aspx> align the City's approach to procurement with its corporate social, environmental and economic sustainability values and goals. They evidence the City's commitment to maximize benefits to the environment and the community through product and service selection, and to ensure safe and healthy workplaces, where human and civil rights are respected. Each Proponent is expected to adhere to the supplier performance standards set forth in the Supplier Code of Conduct. The Ethical Purchasing Policy shall be referred to in the evaluation of Proposals, to the extent applicable.

9.2 The City's Alcohol, Controlled Drugs and Medications Policy applies to all contractors doing work on behalf of the City and can be found at <https://policy.vancouver.ca/ADMIN011.pdf>. The policy is intended to set expectations regarding the use of alcohol, medication and controlled drugs that may render an employee unfit for work, impair performance or cause risk of harm to health and safety. The successful Proponent will be required to ensure compliance with the policy by its employees when doing work for the City.

**10.0 CERTAIN APPLICABLE LEGISLATION**

11.1 Proponents should note that the City of Vancouver is subject to the *Freedom of Information and Protection of Privacy Act* (British Columbia), which imposes significant obligations on the City's consultants or contractors to protect all personal information acquired from the City in the course of providing any service to the City.

11.2 Proponents should note that the *Income Tax Act* (Canada) requires that certain payments to non-residents be subject to tax withholding. Proponents are responsible for informing themselves regarding the requirements of the *Income Tax Act* (Canada), including the requirements to qualify for any available exemptions from withholding.

**11.0 LEGAL TERMS AND CONDITIONS**

12.1 The legal obligations of a Proponent that will arise upon the submission of its Proposal are stated in this Appendix 1 to the Form of Proposal. Except where expressly stated in these Legal Terms and Conditions: (i) no part of the RFP consists of an offer by the City to enter into any contractual relationship; and (ii) no part of the RFP is legally binding on the City.

**POTENTIAL PROPONENTS MUST REVIEW THESE LEGAL TERMS AND CONDITIONS CAREFULLY BEFORE SUBMITTING A PROPOSAL.**

## PART B – SCOPE OF WORK

The scope of work stated in this Part B (collectively, the “Scope of Work”) is current as of the date hereof, but may change or be refined in the course of the evaluation of Proposals or otherwise.

Unless otherwise stated, if, and wherever, the Scope of Work states a brand name, a make, the name of a manufacturer, a trade name or a vendor catalogue number, it is for the purpose of establishing a grade or quality of materials, goods or equipment only. It is not intended to rule out the use of other equivalent materials, goods or equipment. If, however, products other than those specified are proposed in any Proposal, the Proposal must explicitly include under the heading “Alternative Solutions” the names of such products and their manufacturers, any trade names and any applicable vendor catalogue numbers, and the City may request that the Proponent provide specific evidence of equivalency. Evidence of quality in the form of samples may also be requested.

### 1.0 INTRODUCTION

The City of Vancouver’s street light system is currently controlled by photoelectric cells that switch contactors to energize and de-energize street light circuits in response to available daylight. As such, street light circuits do not receive mains power during the day when the street lights are in the off state.

The City’s Outdoor Lighting Strategy (<https://council.vancouver.ca/20190723/documents/a4.pdf>) recommends the installation of an intelligent lighting control and monitoring system. In conjunction with the recommended citywide adoption and use of LED technology for street lighting, intelligent controls will provide significant energy and operational savings to the City.

In order to facilitate intelligent controls, the current method of energization and de-energization of street lights must be revised; it will be necessary to provide 24-hour power to individual street light poles in order for intelligent controls to function.

The goal of this *wiring standards risk assessment* is to enable informed and robust decisions when considering existing wiring installations and current wiring standards given continuous supply of power to metal street light poles. Study outcomes will provide the basis to understand the extent to which existing installations may be deficient with respect to current code requirements, evaluate the City’s current wiring standards and mitigation methods, and the risks associated with installations that do not conform to the latest code requirements.

### 2.0 BACKGROUND

The City of Vancouver owns and maintains over 44,000 streetlight poles. The voltages supplied for street lights in the City of Vancouver are 120V-1 $\phi$  and 240V-1 $\phi$  from system voltages that include 120/240V-1 $\phi$ , 120/208V-3 $\phi$ , and 347/600V-3 $\phi$ . The existing pole and underground power distribution infrastructure installations range from the 1940s to present day. As electrical safety and Electrical Code requirements have changed over time, existing installations may not meet current code requirements.

The City’s current streetlight pole wiring standard is diagramed in Drawing LDS-1.4. The diagram details the installation of a bond conductor from the service panel to each pole, and the internal wiring of the bonding conductor in each pole to the bonding stud and the luminaire ground.

One issue that has been identified in some existing underground installations is the lack of a bonding conductor from the pole back to the source. In some cases, the conductors for these branch circuits are direct buried, while others are installed in old steel conduit that may have corroded, are overfilled, or are in such a condition as to make it impossible to pull a bonding conductor through. It should also be

noted that the Electrical Code permitted the use of steel conduit as a ground conductor in the past. Some existing installations may have used this method as the ground conductor to source, but continuity is not assured as sections of steel conduit may have eroded or been replaced with non-conductive conduit.

The City has developed an installation standard for missing bonding conductor mitigation (Drawing E7.19). The solution proposes to install an electrical “sub-service” adjacent to a pole that is missing the bonding conductor. Downstream poles that can be bonded to the sub-service do not require its own mitigation solution.

The City will implement its missing bonding conductor mitigation solution, or install a bonding conductor back to source, where and when such a need is identified, as and when it is feasible to do so. Therefore, it is necessary that the City understands the level of risk associated with existing installations that are not compliant with current code requirements.

The goals of the overall wiring standards risk assessment are:

- To determine the level of risk assumed with no further upgrade work done with street light poles that do not have a bonding conductor back to source
- To determine the degree of increased risk as a result of 24-hour power availability to street light poles that do not have a bonding conductor back to source
- To determine a baseline for which the risks in the above two points may be considered acceptable; acceptable risk may take into consideration reasonable care that is not lower than the standard that is accepted in industry or in other municipalities that have faced a similar issue
- To review the City’s mitigation solution and determine its effectiveness or recommend improvements
- To identify missing bonding conductor mitigation solutions implemented in other cities and municipalities
- To inform the amendment of missing bonding conductor mitigation strategies, if required
- To gain an understanding of the scale and scope of work required to identify all such non-conforming poles
- To gain an understanding of the scale and scope of work required to mitigate, or bring to current code requirements, existing non-conforming installations
- To determine the work and/or areas the City should address, from highest to lowest priority

The Study Area:

The subjects of this study are the street light poles in the City of Vancouver. In particular, any street light pole where power is supplied from underground could potentially be missing a bonding conductor or bonding mitigation solution. In general, underground power supplies that are direct buried or in old conduit have a greater probability of not having a bonding conductor from the pole back to the source.

Technical Advisory Team:

City staff from Traffic, Electrical Operations and Design Branch will form an advisory committee to oversee the project and provide technical input/decision-making where required.

### 3.0 SCOPE OF WORK

#### Item 1 - Data Analysis

There is a potential gap in the existing underground electrical wiring of legacy installations with respect to the bonding at street light poles. It is not known how pervasive this issue is, or how many streetlight poles do not comply with current standards.

In this step, the proponent will review the available information, identify gaps in knowledge, suggest feasible proxies and propose a schedule of work to perform reviews to gather the data needed to identify all non-conforming streetlight poles.

The expected deliverables of the data analysis include:

- Identify potential areas with the highest quantities of non-conforming poles;
- Suggest reasonable proxies for approximating the total quantities of non-conforming poles; and
- Quantify the work and capital required to bring non-conforming installations to code compliance.

#### Item 2 - Risk Analysis

While the City's goal is to ultimately bring all non-conforming installations to current standards, it is not possible to instantaneously effect change to all such installations in the City. As such, the City wishes to quantify the degree of risk given the knowledge that such legacy installations do exist, and will continue to exist in its current condition until they can be addressed.

In this step, the proponent will present the City with an analysis that summarizes the risks given its current knowledge, and whether this represents an acceptable level of risk.

To summarize, anticipated deliverables include:

- Evaluation and report of what constitutes an acceptable level of risk based on current knowledge of missing bonding conductors, and the current method of shutting off streetlights during the day by de-energizing streetlight circuits.
- Evaluation and report of the increased level of risk assumed when streetlight circuits are converted to 24 hour power availability.
- Analysis and report of the level of risk the City assumes with its existing installations before and after 24-hour power is turned on, considering the City's long term goals of making those installations code compliant—and how it relates to what can be considered as an acceptable level of risk, taking into consideration the City's duty to provide reasonable care that is not less than what is applied in common practice.
- Clear reporting on all methodologies and recommendation rationale.

Criteria to index vulnerability will be developed by the proponent and reviewed by the technical advisory team.

#### Item 3 - Remediation

The objective of the Wiring Standards Risk Assessment is to provide City staff with information on how best to proceed with their goal of converting street lights to 24-hour power availability. With the knowledge that some legacy street light pole installations may not meet current bonding standards, the proponent will quantify for the City the level of effort and capital required to bring all street light poles in the City to meet current standards.

The proponent will outline clear work criteria and procedures to identify all non-conforming streetlight poles. A list of service panels may need to be compiled. In order for the City to accurately identify poles that require remediation, streetlight circuits and poles each panel serves may need to be checked for bond continuity.

The anticipated deliverables include:

- Recommendations on work procedures to identify streetlight poles with missing bonding conductor
- Outline of strategy to identify, quantify, and categorize all non-conforming streetlight poles.
- The estimated level of effort required by City crews to identify in the field all poles that do not have a bonding conductor
- The estimated level of capital required to be committed by the City to effectively bring all non-conforming installations to current code requirements

#### Item 4 - Recommendations

In addition to the risk analysis report, the proponent will review the City's information and provide City staff with recommendations to meet industry best practices and establish a baseline for meeting a reasonable level of care.

Anticipated deliverables include:

- Report of the proponent's assessment of the City's current wiring standards, and, if required, recommendations for improvements
- Report of the proponent's assessment of the City's current missing bonding conductor mitigation strategy, and, if required, recommendations for improvements
- Research, review, and report of solutions implemented by other municipalities for similar issues involving bonding at street light poles that do not meet current standards
- Advise the City on what further studies are required to ensure it meets its duty of care, and make recommendations for improvements as appropriate
- Recommendations for high, medium and low priority responses

#### 4.0 EXPERTISE

The successful proponent will be an electrical engineering consultant with expertise in engineering risk analysis, organizational risk management, functional safety engineering, and safety critical systems design and analysis.

The deliverables must be completed by and sealed by a professional engineer registered in the province of British Columbia.

  - (b) a legally enforceable covenant from the new entity confirming that it is legally bound to the City to perform this Agreement.

## 15.0 CONFIDENTIALITY

- 15.1 In the course of or for the purpose of performing the Services, the Consultant will obtain or have access to information, including but not limited to technical information, financial information and business information, which is confidential to the City, and is the exclusive, world-wide property of the City and/or its suppliers and customers (collectively "Confidential Information"). The Consultant will take all reasonable precautions against the Confidential Information being used by or disclosed to any unauthorized person.
- 15.3 If the Consultant is required by any law, legal proceeding, or court or government order, to disclose any Confidential Information, the Consultant shall limit its disclosure of such Confidential Information to the extent and purpose legally required, provided that prior to any disclosure the Consultant will promptly notify the City in writing of the existence and the terms, and conditions of the required disclosure and, at the City's request and expense, co-operate in obtaining a protective order or other assurance that confidential treatment and restrictions on use will be accorded such Confidential Information.

The Consultant confirms and acknowledges its obligations to comply with all obligations imposed on it pursuant to the *Freedom of Information and Protection of Privacy Act* (British Columbia) with respect to all personal information received from the City whether as part of the Confidential Information or otherwise.

15.5 The Consultant acknowledges that in the event of a breach by the Consultant or any of its employees of their respective confidentiality obligations pursuant to this Section 15.0, damages alone would not be an adequate remedy. The Consultant therefore agrees with the City that, in addition to and without limiting any other right or remedy it may have, the City will have the right to an immediate injunction or other available equitable relief in any court of competent jurisdiction enjoining any threatened or actual breach of such obligations.

15.6 The Consultant shall return all copies of the Confidential Information to the City, in all tangible forms and media, and delete all Confidential Information resident in any databases or systems, upon the earliest of the following dates:

This Section does not apply to Pre-Existing Materials.

17.7 The Consultant will not incorporate any Pre-Existing Materials in any Deliverable without first:

- (a) advising the City, in writing, of the nature of the Pre-Existing Materials and their proposed use and obtaining the City's written consent to do so;
  - (b) acquiring from each third-party owner of such Pre-Existing Materials, a fully paid-up, perpetual, non-exclusive license, in writing, for the City to use the Pre-Existing Materials as part of the Deliverable; and
  - (c) granting, in writing, to the City with respect to such Pre-Existing Materials that the Consultant owns, a fully paid-up, perpetual, non-exclusive license to use the Pre-Existing Materials as part of the Deliverable.
- 17.8 The Consultant represents and warrants that the Deliverables will not infringe, misappropriate or misuse any copyright, patent, trade-mark, trade secret, or confidential or proprietary information of a third party. The Consultant shall defend, indemnify and hold the City harmless from and against any and all damage, liability, cost and expense incurred by the City in connection with any claim by a third party that a Deliverable infringed, misappropriated or misused its copyright, patent, trade-mark, trade secret, or confidential or proprietary information.

- 19.1 The Consultant agrees that during the Term the Consultant will not engage in any conduct which would or might put the interests of the City into conflict with the interests of any other person, whether or not a client of the Consultant's. Without limiting the general scope of this Section 19.1 and by way of example only, the Consultant is prohibited from and will not provide any services which assist or could be seen to be assisting any person in responding to a request for proposal or invitation to tender, or otherwise giving that person an unfair competitive advantage over other proponents or tenderers responding to a request for proposal or invitation to tender by the City. The Consultant now acknowledges that a breach of this Section 19.1 could constitute not only a breach of this Agreement but also a violation of the *Competition Act* (Canada) and *Criminal Code* of Canada, and accordingly, could be punishable as a crime (as well as a breach of contract).

For the purposes of this Section, an "Unavoidable Delay" means any

If an Unavoidable Delay occurs, the non-performing party will, as soon as possible after the occurrence of the Unavoidable Delay, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of its obligations under this Agreement.

## 26.0 GENERAL

- 26.1 **No Waiver.** No action or failure to act by the City shall constitute a waiver of any right or duty under this Agreement, or constitute an approval or acquiescence in any breach hereunder, except as may be specifically agreed in writing by the City.
- 26.2 **Severability.** The invalidity, illegality or unenforceability of any portion or provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void portion or provision shall be deemed severed from this Agreement and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion or provision held to be void. The Parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken position.
- 26.3 **Remedies Cumulative.** The remedies of the Parties provided for in this Agreement are cumulative and are in addition to any remedies available to the Parties at law or in equity. No remedy will be deemed to exclude or restrict the right of a Party to any other remedies against the other Party and a Party may from time to time have recourse to one or more of the remedies specified in this Agreement or at law notwithstanding the termination of this Agreement.
- 26.4 **Further Assurances.** Each Party shall execute such further and other documents and instruments and do such further and other acts as may be necessary to implement and carry out the provisions and intent of this Agreement.
- 26.5 **Entire Agreement.** The Contract Documents constitute the entire agreement between the Parties with respect to the subject matter hereof, and supersede all previous communications, representations and agreements, whether oral or written, with respect to the subject matter hereof.
- 26.6 **Amendment.** This Agreement shall not be amended except as specifically agreed in writing by both the City and the Consultant.
- 26.7 **Joint and Several Liability of Joint Venture Participants.** If the Consultant is a joint venture of two or more entities, it is understood and agreed that the grants, covenants, provisos, claims, rights, powers, privileges and liabilities of the entities who comprise the Consultant shall be joint and several.
- 26.8 **Schedules and Appendices.** The schedules and appendices attached hereto are incorporated by reference in and form an integral part of this Agreement.
- 26.9 **Set-Off.** The City may at its option, withhold and set-off against any amount owing to the Consultant (whether under this Agreement or otherwise) any amounts payable by the Consultant to

the City (whether under this Agreement or otherwise) and the amount of any damages suffered or claims made or to be made by the City as a result of any other claim it may have against the Consultant, whether such claim is at law or in equity or tort or on any other basis.

26.10 **Enurement.** This Agreement shall enure to the benefit of and be binding upon the City and the Consultant and their respective successors and permitted assigns.

26.11 **Execution.** This Agreement may be executed in one or more counterparts each of which will constitute an original and together will constitute one and the same Agreement. This Agreement may be executed by the Parties electronically or by facsimile and if so executed and transmitted, this Agreement will be for all purposes as effective as if the Parties had delivered an executed original Agreement.

As evidence of their agreement to be bound by the above contract terms, the City and the Consultant each have executed this Agreement as of the day and year first above written.

## APPENDIX A - INSURANCE REQUIREMENTS

**A1.1 Required Types/Amounts** Prior to commencing the Services, the Consultant will obtain at its own expense:

- (a) a professional (errors and omissions) liability insurance policy with limits of not less than \$2,000,000 per claim and not less than \$3,000,000 in aggregate and a deductible of not more than \$50,000, protecting the Consultant against all claims for loss or damage arising out of any error or omission of the Consultant or the Consultant's personnel in the performance of the Services; and
- (b) a commercial general liability insurance policy with a limit of not less than \$2,000,000 per occurrence, and a deductible of not more than \$5,000, protecting the Consultant and the Consultant's personnel against all claims for personal injury, including death and bodily injury, and property damage or loss, arising out of the operations of the Consultant or the actions of the Consultant or the Consultant's personnel. The policy must contain a cross-liability clause in favour of the City and will name the City and the City's officials, employees and agents as additional insureds.

**A1.2 Required Policy Terms**

All required insurance policies must remain in full force and effect at all times until completion of the Services or earlier cancellation of this Agreement, and for a period of not less than two years thereafter, and must:

- (a) be obtained from and issued by insurers authorized to carry on business within British Columbia, on terms satisfactory to the City's Director of Risk Management, acting reasonably;
- (b) be primary insurance in respect to the City, and any insurance or self-insurance maintained by the City will be in excess of this insurance and will not contribute with such policies; and
- (c) contain a provision that such insurance coverage will not be cancelled without the insurer giving the City at least 30 calendar days' prior written notice,

and, for any property insurance carried by the Consultant, contain a clause that waives the insurer's right of subrogation against the City and the City's officials, employees and agents.

**A1.3 Insurance Certificate**

Prior to signing, and immediately following the signature of, this Agreement, the Consultant shall have provided, or shall provide, the City's Project Manager with evidence of all required insurance to be taken out in the form of one or more certificate(s) of insurance. The certificate(s) of insurance will identify the Agreement title, number, policyholder and scope of work and must not contain any qualifications or disclaimers. Proof of insurance, in the form of such certificate(s) of insurance (or copies of the policy(ies) themselves, if requested), will be made available to the City's Project Manager at any time during the performance of the Services immediately upon request.

**A1.4 Sub-Contractors' Insurance**

The Consultant will provide in its agreements with its Sub-contractors insurance clauses in the same form as in this Agreement. Upon request, the Consultant will deposit with the City's Project Manager detailed certificates of insurance for the policies of its Sub-contractors (or copies of the policy(ies) themselves, if requested) and a copy of the applicable insurance clauses from its Sub-contractor agreements.

**A1.5 Insurance Requirements Additional to any other Requirements**

The Consultant and each of its Sub-contractors will provide, at its own cost, any additional insurance which it is required by law to provide or which it considers necessary.

**A1.6 Insurance Requirements Independent of Agreement Obligations**

Neither the providing of insurance by the Consultant or the Sub-contractors in accordance with this Agreement, nor the insolvency, bankruptcy or the failure of any insurance company to pay any claim accruing, will be held to relieve the Consultant from any other provisions of this Agreement with respect to liability of the Consultant or otherwise.
