IN RESPECT OF GENERAL EXCAVATED MATERIALS SORTING LOADING AND HAULING SERVICES
PART A - INFORMATION AND INSTRUCTIONS

SUMMARY

The City of Vancouver is seeking proponent(s) who are able to provide sorting, loading, hauling and reuse of general excavated rubble and crushed slab rubble from Kent Materials Branch (Kent Yard) to the Vancouver Landfill (VLF) or alternate Contractor sites while meeting the City's operational and budgetary requirements. Details of the City's objectives and requirements to which the RFP relates are set out in Part B - Scope of Work of the RFP.

PART A - INFORMATION AND INSTRUCTIONS

1.0 THE RFP

- 1.1 Except where expressly stated otherwise in Appendix 1 of Part C of the Request for Proposals ("RFP"): (i) no part of the RFP consists of an offer by the city to enter into any contractual relationship; and (ii) no part of the RFP is legally binding on the city.
- 1.2 The City is interested in selecting an entity, which is not, by the terms hereof, barred from submitting a Proposal, and which does submit a Proposal (each such entity, a "**Proponent**") with the capability and experience to efficiently and cost-effectively meet the objectives and requirements described in the RFP. The City currently expects to select such a Proponent and then enter into negotiations with that Proponent, which will conclude in the execution of a contract between the Proponent and the City (such a contract, an "**Agreement**"). However, the City may: (i) decline to select any Proponent; (ii) decline to enter into any Agreement; (iii) select multiple Proponents for negotiation; or (iv) enter into one or more agreements respecting the subject matter of the RFP with one or more Proponents or other entities at any time. The City may also terminate the RFP at any time.
- 1.3 The City currently intends that Proposals will be evaluated by the City in relation to their overall value, which will be assessed in the City's sole and absolute discretion. In assessing value, the City expects to consider the factors described in Section 8.0 below, among others.
- 1.4 No bid security is required from Proponents in connection with the submission of Proposals because no Proposal will be deemed to be an irrevocable or otherwise binding legal offer by a Proponent to the City. The legal obligations of a Proponent that will arise upon the submission of its Proposal will be limited to the terms and conditions stated under the heading "Legal Terms & Conditions" in Appendix 1 to the Part C - Form of Proposal.
- 1.5 The execution of an Agreement may be contingent on funding being approved, and the relevant Proposal being approved, by the Vancouver City Council.
- 1.6 The RFP consists of four parts, plus appendices:
 - 1.6.1 **PART A - INFORMATION AND INSTRUCTIONS:** This part is intended to serve as a guide to the RFP process for Proponents.
 - 1.6.2 **PART B - SCOPE OF WORK:** This part describes the subject matter of the RFP, in respect of which the City invites Proposals.
 - 1.6.3 **PART C - FORM OF PROPOSAL:** This is the form in which the Proposal should be submitted.
 - 1.6.4 **PART D - FORM OF AGREEMENT:** This part contains a model Agreement (the "**Form of Agreement**"). Any Agreement resulting from the RFP is expected to be substantially in the form of the Form of Agreement.

PART B - SCOPE OF WORK

PART B - SCOPE OF WORK

The scope of work stated in this Part B (collectively, the “**Scope of Work**”) is current as of the date hereof, but may change or be refined in the course of the evaluation of Proposals or otherwise.

Unless otherwise stated, if, and wherever, the Scope of Work states a brand name, a make, the name of a manufacturer, a trade name or a vendor catalogue number, it is for the purpose of establishing a grade or quality of materials, goods or equipment only. It is not intended to rule out the use of other equivalent materials, goods or equipment. If, however, products other than those specified are proposed in any Proposal, the Proposal must explicitly include under the heading “Alternative Solutions” the names of such products and their manufacturers, any trade names and any applicable vendor catalogue numbers, and the City may request that the Proponent provide specific evidence of equivalency. Evidence of quality in the form of samples may also be requested.

To the extent that the Scope of Work expresses estimates of quantities or volumes of goods or services expected to be required by the City, the City cannot offer any assurances that such quantities or volumes will in fact be required.

1.0 INTRODUCTION

The City of Vancouver is seeking a Contractor to provide safe general loading, sorting, side casting of select materials and hauling of excavated materials from Kent Yard to Vancouver Landfill, as well as hauling and unloading of material to various sites in the Lower Mainland that may require fill.

Proponents are encouraged to submit for consideration alternatives to hauling to the Vancouver Landfill, which provides value to the City, promotes green, sustainability practices and/or makes good sense. If the Proponent submits, as part of its proposal an alternate disposal site or sites, these sites are to be supplied by the successful proponent at its sole cost, risk and expense and the successful proponent must be able to verify with appropriate documentation that the successful proponent has all necessary legal access, disposal and environmental permits/rights to dispose of the City’s General Rubble on the site(s).

1.1 Background

The City produces excavated materials/soils (“General Rubble”) from sewer and waterworks trenches and street excavations. General Rubble is usually granular to silty and may contain rocks, boulders, asphalt and concrete pieces of various sizes and at times it may be saturated with water.

The City also produces slab rubble (“Slab Rubble”) which consists of concrete and asphalt from curbs, roadways and sidewalks. The Slab Rubble stockpile is currently managed by a third party (the “Slab Rubble Contractor”) and crushed for recycling and is not part of this RFP.

The City operates a material Transfer Facility at 900 E Kent Ave. South. (Kent Yard). The Transfer Facility is a secured and fenced area of 1 Hectare and is open for receiving General Rubble and Slab Rubble loads during Regular Working Hours. Occasionally, the Transfer Facility is open for incoming loads outside of regular working hours. The Facility is divided into areas that receive General Rubble loads and Slab Rubble loads each with a limited stockpile capacity.

Located inside Kent Yard and adjacent to the Transfer Facility is one (1) City owned and operated barge berth with ramp. The berth is used to unload barges of mineral aggregates. However, at times, this berth could be available for loading outbound material.

REQUEST FOR PROPOSALS NO. PS20200011
IN RESPECT OF GENERAL EXCAVATED MATERIALS SORTING LOADING AND HAULING SERVICES
PART B – SCOPE OF WORK

The City will consider Proposals from Proponents for part-time (subordinate to incoming City loads), use of the berth.

The City has flexibility in the site configuration and will consider Proposals suggesting alternative layouts to best accommodate all users.

The Transfer Facility has an eighty (80) foot and a thirty (30) foot scale used to weigh inbound and outbound loads of all excavated waste material. The City provides a scale operator to record all transactions at the facility during normal working hours.

1.2 Summary of Requirement

The City of Vancouver is seeking a contractor that will provide:

- General rubble hauling and delivery of approximately 200,000 tonnes per annum;
- Crushed slab rubble hauling and delivery of approximately 50,000 tonnes per annum;
- Sort slab rubble (larger than 30cm) from general rubble with an excavator bucket with thumb on a full time basis;
- Hauling of material to various sites in the lower mainland that require fill, with a list of proposed dumping site(s), the use of the general rubble materials and if the City's material would be the sole source of fill material; and
- An option to Screen out cobbles and other soil materials greater than 2" from general rubble, with cobbles/soil material to be added to the slab rubble stockpile.
- To provide detailed safe work guidelines or best practices for all relevant operations, including stockpiling of materials
- Any value added work like return hauling from VLF to Kent?
- To provide qualified staff at various positions
- Administrative and operational capabilities to ensure consistent work schedules.

1.3 Transfer Facility Capacity and Minimum General Rubble Loads Hauled Out

The City's Transfer Facility has a limited capacity of approximately 3,000 tonnes for a General Rubble stockpile. The remaining stockpile area is for Slab Rubble and other recyclable components of General Rubble. The Contractor is responsible not to use this area for additional storage of General Rubble.

The City will be responsible to define boundaries for General Rubble stockpiles relating to the capacity of the Transfer Facility. See Appendix 1 to Part B – Site Plan for Transfer Facility for the current layout of the rubble and slab stockpile areas. The Contractor is responsible to haul away excess General Rubble outside of the boundary area as required in order to maintain a clear and safe operational area to receive incoming loads and to maximize safe operating distances from other equipment.

The Contractor is responsible to remove up to 1150 tonnes of General and Slab Rubble from the Transfer Facility Monday to Friday during Regular Work Hours from 7:00 am to 3:20 pm.

The Contractor will be responsible for monitoring the volume of General Rubble delivered daily to the Transfer Facility and will be allowed a twenty-four (24) hour period to schedule equipment/operators and trucks to remove excess General Rubble.

In the event that the Contractor is unable to haul out the daily expected tonnage and the General Rubble stockpile is at capacity the City reserves the right to haul excess General Rubble to the Vancouver Landfill at the Contractor's expense.

REQUEST FOR PROPOSALS NO. PS20200011
IN RESPECT OF GENERAL EXCAVATED MATERIALS SORTING LOADING AND HAULING SERVICES
PART B - SCOPE OF WORK

1.4 Contaminated Items

The City ensures that the general rubble delivered to Kent Yard is not contaminated. General rubble is excavated from residential streets of the City, commercial and industrial areas. Potential or actual contaminated material that is identified during excavation will be handled separately by City forces and not delivered to Kent Yard.

The Contractor is responsible to deliver by truck quality, clean loads of general rubble to the Vancouver Landfill located at 5400 72nd Street, Delta, BC. If contaminated soil is located at Kent Yard, the City will pay all additional fees to have the material properly disposed of.

The Contractor is responsible to remove recyclable concrete and asphalt slabs, boulders over 0.3 meters (12") in size and pieces of wood, various metal types or pipe from general rubble and placed in the appropriate bin or pile. The City reserves the right to reject any load that does not meet this requirement.

1.5 Truck/Barge Loading

The Contractor is responsible to ensure that its trucks meet legal load axle limits before leaving the Site. Please note that no loads will be allowed to leave the Kent Yard site if they are greater than the GVW capacity for trucks and trailers. The Transfer Facility's thirty (30) foot scale can be used to weigh truck axles and load displacements to ensure that they do not exceed their legal limit for transport. The Contractor is responsible to ensure that all his trucks are cleaned of debris on the boxes and frames and cleaned of rocks wedged between tires.

The Contractor is responsible for their trucks to comply with City of Vancouver By-laws regulating truck use, including truck route, engine brake noise, weight and load securing provisions. The scale operator is responsible to not weigh any trucks that do not comply with these truck safety issues.

The Contractor is responsible to load and deliver by truck, quality, clean loads of General Rubble to the Vancouver Landfill. The Contractor is responsible to remove recyclable concrete and asphalt slabs, boulders over 12" in size and pieces of wood, metal or pipes from General Rubble, including side-casting slab rubble to the appropriate pile and metals and deleterious materials to the designated bins. The City reserves the right to reject any load that does not meet this requirement. The Contractor does not have to remove anything other than recyclable materials from General Rubble going to an alternate disposal site either by truck or by barge unless otherwise required to comply with permits.

The last weighing of Contractor trucks on the scale at the Transfer Facility destined for disposal at the Landfill, alternate disposal site or onto barge occurs ten (10) minutes before the end of Regular Work Hours. The scale operator is responsible to reject loads past this time and have them returned to the General Rubble stockpile.

The City reserves the right to weigh any inbound loads of General Rubble or Slab Rubble that arrives at the Transfer Facility within the last ten (10) minutes of the Regular Work Hours.

The priority of use of the weigh scale is first come first served. The Transfer Facility has a one-way road direction onto the scale. All inbound or outbound loads use the same roadway to enter the scale. At times, the Commercial Vehicle Unit of the Vancouver Police Department ("VPD") will use the Transfer Facility's scales to weigh trucks that they suspect are overloaded. The VPD will wait until the scale is not in use by either the Contractor or the City before weighing their suspected overloaded truck.

The City reserves the right to direct truck traffic priorities under its sole discretion.

IN RESPECT OF GENERAL EXCAVATED MATERIALS SORTING LOADING AND HAULING SERVICES
PART B - SCOPE OF WORK

1.6 Site Cleaning and Dust Control

The Contractor is responsible for the cleanliness of the designated work area in the facility. The Facility has a fixed and portable sprinkler system and it has a wheel wash in the road leading out of the Facility. The Contractor will be responsible to ensure levels of dirt and airborne dust inside the Facility aerate or are at or below acceptable levels. The Contractor's trucks leaving the Facility must drive through the wheel wash before entering City streets. Where the Contractor neglects or fails to comply with this section 1.6, the City will, without prejudice to its other rights and remedies and at the City's election, either clean the affected area immediately (and without notice to the Proponent of its breach) and at the City's election and on prior written or verbal notice to the Proponent require the Proponent to clean the affected area immediately on receipt of such notice.

1.7 Prohibited Uses of Landfill/Transfer Station

- (a) The Contractor is prohibited from using the Vancouver Landfill and Transfer Facility for the deposit or storage of anything other than General Rubble, provided however, that the Contractor will be permitted to deposit waste material which is not General Rubble at the Vancouver Landfill as a member of the public or pursuant to any other contract between the City and the Contractor.
- (b) The City will not be entitled to charge the Contractor any fee, rate or other charge in connection with the General Rubble deposited in accordance with this Agreement at the Vancouver Landfill by the Contractor. In the event that the Solid Waste By-law or any other applicable by-law of the City is enacted or amended such that the Proponent is required to pay any fee, rate or other charge in connection with the deposit of the General Rubble at the Vancouver Landfill, the Contractor will be required to pay this amount concurrently with the deposit of each load at the Vancouver Landfill, but will be entitled to reimbursement of such fee, rate or other charge without any mark up or overhead of any kind by the City and the City now agrees to reimburse the Contractor for any such fee, rate or other charge paid by the Contractor at the Vancouver Landfill concurrently with any invoice in respect of the Work associated with that fee, rate or other charge.
- (c) In the event that the Contractor is audited or investigated by the City or any police agency and it is discovered that the Proponent deposited material other than General Rubble at the Vancouver Landfill without disclosing this fact to the City and paying the stipulated amounts for same as required pursuant to the Solid Waste By-law as amended from time to time, the Contractor will be liable to pay all amounts estimated by the City's auditor to be owing with interest for the arrears on same at Prime Rate plus 20% per annum from the date that each payment is estimated to have become due and owing up to and including the day that the Contractor pays the amount owing to the City pursuant to this section.
