

REQUEST FOR PROPOSALS "RFP" PS20200073 -  
SUPPLY AND DELIVERY OF WILDLAND FIRE APPARATUS  
QUESTIONS AND ANSWERS NO. 1

ISSUED ON: October 30, 2020

Q1	Referring to Appendix 1 to Part B - Tab 5 "Outfitting" : Does 3.26 allow us to bid with an all-aluminum body?
A1	Yes, an all-aluminum body may be bid for consideration. If the body is aluminum it would be expected that the aluminum would require painting. For items that specify stainless steel in the specification, please indicate how the aluminum body would modify or meet the specifications in the Bidder Indicate Deviations and Stated Values column.
Q2	Is a painted aluminum body or an unpainted stainless body the preferred option?
A2	An unpainted Stainless steel body is the preferred option for VFRS. The idea is that when the chassis needs future replacement the body could be moved easily from one unit to the next.
