

REQUEST FOR PROPOSALS "RFP" PS20200073 -
SUPPLY AND DELIVERY OF WILDLAND FIRE APPARATUS
QUESTIONS AND ANSWERS NO.2

ISSUED ON: November 25, 2020

Q1	<p>Regarding specification 8.0 thru 8.05 (ELECTRICAL WINCH)</p> <p>We are unaware of an 18,000 lb rated electric winch that is available in 12-volt version and compatible with the F550 Chassis</p> <p>8.03 LOAD RATING: Warn winch does make 18,000 in 24-volt.</p> <p>Could the city supply a brand and model of winch that would met the 18,000, 12-volt requirement? OR Would the city accept a Warn 16,500lb rated 12-volt winch? (See links before for further information)</p>
A1	<p>The City of Vancouver and VFRS over-specified the Winch capabilities compared to what is readily available on the market. The City and VFRS prefer to stick with a winch operated by 12V and a capacity rating of 16,500 lbs is sufficient for our operation.</p>
