REQUEST FOR PROPOSALS "RFP" NO.PS20200609-  
SUPPLY AND DELIVERY OF 20 YARD SIDE LOADERS

AMENDMENT No. 1

RE: PART C - FORM OF PROPOSAL - APPENDIX 2 - QUESTIONNAIRE:

Technical Requirements Part IV - Safety and Performance

REPLACE WITH:

Technical Requirements Part IV - Safety and Performance

In the space below, Proponents should answer the following questions:

11. Operational ergonomics, driver visibility and other safety concerns will be the over-riding factor in selecting the winning bid. Describe how the proposed unit will improve driver ergonomics, including adjustability of controls, visibility, and integration of displays and technology. Also any safety system (i.e., driver alerts/buzzers) in the proposed unit.
12. Describe how the proposed unit will improve maneuverability and minimize turning radius while maximizing payload and weight distribution.
13. The city strongly prefers a loading system that requires smallest working envelop (i.e., Zero or Low Swing Arm System) due to the limited pickup space in the City's narrow alleys and has a gripper capable of handling different sizes of fully loaded carts (120 to 360 L) and not dropping the cart into the hopper. Describe how the proposed loading system can meet the requirements and how the local distributor can support adjustments to the gripper and arm once the vehicles are in-service.
14. Describe the details of gripper design that will work under different operating conditions (i.e., rain, snow, froze cart) and not drop the cart into the hopper.

All other conditions and specifications remain unchanged.

This amendment must be completed, and attached to your Part C - Proposal Form.

If you have already submitted your bid, this Amendment shall be submitted via email to [bids@vancouver.ca](mailto:bids@vancouver.ca); and must be received prior to the Closing Time with the email subject line that should read "AMENDMENT No. 1 to RFP -20200609- SUPPLY AND DELIVERY OF 20 YARD SIDE LOADERS
