**REQUEST FOR PROPOSALS “RFP” No. PS20200677
CONSULTANT FOR END USE PLANNING - VANCOUVER LANDFILL**

AMENDMENT No. 1

1. RE: CHANGE TO THE PART B - CITY REQUIREMENTS - 4.0 PROJECT PROCESS

Currently reads:

4.0 PROJECT PROCESS

With the guidance of the Consultant, the development of the End Use Plan for the Landfill will be jointly led by the City of Vancouver and City of Delta in consultation with Metro Vancouver and MOE, and as needed, other stakeholders. Public consultation is not included in the scope of work, and would be performed by the City of Delta in the future, at their discretion.

The Project Stakeholders are the City of Vancouver, City of Delta, Metro Vancouver and MOE. In addition, the following is a list of potential external Project Stakeholders:

- (a) Delta Farmers Institute
- (b) Burns Bog Ecological Conservancy Area Scientific Advisory Panel
- (c) Burns Bog Conservation Society
- (d) Agriculture Land Commission
- (e) TransLink/Coast Mountain Bus Company and BC Ministry of Transportation
- (f) Boundary Bay Airport

Internal project management will be performed by the City of Vancouver’s Project Management Team. The Project Management Team is adequately resourced to manage the coordination and review process with the Project Stakeholders, and to assist the Consultant in prompting input and feedback from the Project Stakeholders.

Change to:

4.0 PROJECT PROCESS

With the guidance of the Consultant, the development of the End Use Plan for the Landfill will be jointly led by the City of Vancouver and City of Delta in consultation with Metro Vancouver and MOE, and as needed, other stakeholders. Public consultation is not included in the scope of work, and would be performed by the City of Delta in the future, at their discretion.

**REQUEST FOR PROPOSALS “RFP” No. PS20200677
CONSULTANT FOR END USE PLANNING - VANCOUVER LANDFILL**

AMENDMENT No. 1

The Project Stakeholders are the City of Vancouver, City of Delta, Metro Vancouver and MOE. In addition, the following is a list of potential external Project Stakeholders:

- (a) Delta Farmers Institute
- (b) Burns Bog Ecological Conservancy Area Scientific Advisory Panel
- (c) Burns Bog Conservation Society
- (d) Agriculture Land Commission
- (e) TransLink/Coast Mountain Bus Company and BC Ministry of Transportation
- (f) Boundary Bay Airport
- (g) BCIT Rivers Institute
- (h) Delta Farmland and Wildlife Trust

Other external Project Stakeholders may be identified within the project and added to the list.

Internal project management will be performed by the City of Vancouver’s Project Management Team. The Project Management Team is adequately resourced to manage the coordination and review process with the Project Stakeholders, and to assist the Consultant in prompting input and feedback from the Project Stakeholders.

All other conditions and specifications remain unchanged.

This amendment should be acknowledged in your Proposal.
