|----|--|
| Q1 | <p>Part C - Appendix 3 - Commercial Proposal - "A question regarding the detailed breakdown of proposed fees excel sheet/ Appendix 3; your instructions request that proponents only fill out section 1.4.1 or 1.4.2, however the pricing model we are offering is a hybrid with prices in both basis points (%) on annual collection value and dollar amounts (\$) on transaction volume.</p> <p>Are you willing to review both sections to find our complete pricing proposal detailed across both sections?"</p> |
| A1 | <p>For section 1.4 - Acquirer Processing Transaction Fees, the City prefers proponents to offer pricing based on either transaction volume (section 1.4.1) or annual collection value (section 1.4.2). However, the City is willing to review the hybrid pricing model as described above provided proponents MUST state clearly in the comments section in column K.</p> <p>REMARK:</p> <ul style="list-style-type: none"> When proponents provide pricing for both sections (1.4.1 and 1.4.2) and do not state clearly in the comments (column K) that the City to ADD BOTH sections (1.4.1 and 1.4.2) to the complete pricing, it is at the City's discretion to choose pricing in either section 1.4.1 or 1.4.2 for evaluation purposes. |
