REQUEST FOR PROPOSALS NO. PS20210269
CONSULTANT SERVICES FOR CANADA GOOSE POPULATION ASSESSMENT STUDY

SUMMARY

In the 1970s, resident urban Canada geese were introduced to Metro Vancouver to boost the local population for hunting and consumption. The ideal habitat in the city of Vancouver resulted in population growth with negative impacts on the landscape, park use and other wildlife. The Vancouver Park Board is seeking consulting services to characterize the Canada Goose population, including its size, distribution, and impacts on the landscape. The study will include recommendations for annual population management activities, including obtaining permits if necessary.

PART B
SCOPE OF WORK

The scope of work stated in this Part B (collectively, the “**Scope of Work**”) IS current as of the date hereof, but may change or be refined in the course of the evaluation of Proposals or otherwise.

1.0 Introduction

To obtain a contractor to study the Canada Goose Population in parks and other public properties (including Granville Island) including population size, distribution, and the impacts geese have on the landscape. The information collected will inform recommendations for population management and develop a comprehensive management plan; the plan will provide guidance for annual management and allow the Park Board to seek federal permits required for goose management if needed.

2.0 Background

In the 1970s, resident urban Canada geese were introduced to Metro Vancouver to boost the local population for hunting and consumption. A number of sub-species of Canada Geese exist, including Resident, Temperate-Breeding and Cackling Geese, with a key distinction being whether or not they migrate or are year-round residents. All of these species of geese can be found in the breeding population who moult and feed in parks in the spring. In the urban environment, there are limited predators and the turf-rich, waterfront landscape provides ideal habitat. In many urban and agricultural communities, large numbers of resident geese are considered problematic because of their impacts on ecology, water quality, and recreational spaces leading some governments across North America to take steps to manage local populations.

Geese tend to congregate in parks where grassy clearings meet the shoreline such as Stanley Park, English Bay and Sunset Beaches, Trout Lake and along False Creek. Geese need a lot of open space to land and take off for flight and to avoid predators, so they may also congregate on irrigated fields where they have some access to water and the grasses that make up their diet. Many Vancouver parks offer ideal habitat and geese may congregate in parks for feeding and moulting, but do not necessarily nest there. There is evidence to demonstrate that they nest on the roofs and balconies of private and public buildings and tall, topped trees throughout the city; however, many of the impacts of the goose population are felt by the Park Board and park users in the spring and summer months even though they are present all year and across the city.

In Vancouver, it was estimated that there were over 2,500 resident geese in 2016 and that this number could continue to increase by 4% to 9% per year (Pierce, 2016). Consequently, the estimated population in 2020 could be as high as 3,500 individuals or more; however, there are currently no available data that definitively indicate population size, growth rate, nor indicate the ideal population size for resident Canada Geese in Vancouver (Pierce, 2016). Canada Geese are highly mobile, with indications that they may move throughout an area including the south coast of British Columbia, northwestern Washington State and eastern Vancouver Island.

Feeding by humans occurs regularly and contributes to the geese congregating in high-traffic and popular parks near this food source. Supplemental feeding by humans can also contribute to geese being able to lay a second clutch in a single season, if their first clutch is added, limiting current population management efforts.

According to Worcester (2010), Canada Goose management was first discussed in the Stanley Park Master Plan (VBPR, 1984), after which time the Park Board passed a resolution that there be a policy of controlling Canada Goose populations. This was deemed necessary as the population of geese in the Park had reached thousands by the 1970s and, in response, in the

REQUEST FOR PROPOSALS NO. PS20210269
CONSULTANT SERVICES FOR CANADA GOOSE POPULATION ASSESSMENT STUDY

1980s annual relocations of up to 2,000 individuals were conducted to move geese out of the Park during the summer moult (Jones, et al., 2001). Between 1992 and 2006, the Vancouver-Richmond Health Board contributed partial funding for this work as it determined that the overpopulating geese posed a significant health risk, particularly around the beaches where high fecal coliform counts necessitated beach closures (Jones, et al., 2001). Funds from the Health Board were withdrawn in 2007 and reduced further in 2009 as a result of City budget constraints. This, in combination with limited options for relocation resulted in relying on addling exclusively for controlling the population size starting in 2010.

It is understood that relocation alone does not reduce the population in the long-term; some geese return to the place from which they were relocated and continue to breed. As well, geese from other locations may move into the space created by relocations or other population reduction efforts. The Park Board's egg addling program involves replacing fertilized eggs with sterilized (usually by freezing) eggs in established nests. There are some challenges with this approach in Vancouver, namely that geese often nest in difficult-to-access areas; it is suggested that the geese have adapted to the urban environment and past addling efforts by choosing these nesting sites (Pierce, 2016).

3.0 Summary of Requirement

The Vancouver Park Board is seeking a contractor to study the Canada Goose Population in Vancouver parks and other city and public properties. The Park Board requires an updated count of the number of breeding and overwintering geese, where they tend to congregate and the physical impacts on those spaces.

The consultant will gather information from other municipalities in the region and province as well as the regional government and experts from groups like the Vancouver Bird Advisory Committee in addition to accessing academic and other research. The Park Board has information on all addling activity and nests located on private and public properties that should be considered in the analysis.

The data will inform recommendations for annual goose population management activities by the Park Board and a Comprehensive Management Plan. The plan will be prepared by the Park Board or the contractor and contain information from this study necessary for Canadian Wildlife Service and Province of British Columbia population management permits, should they be required for recommended activities.

4.0 Work Scope

The Canada Goose Population Assessment should, at a minimum, include the following elements:

- Review of existing information on populations and applied management techniques from other municipalities, the regional government and the Vancouver Bird Advisory Committee;
- Review of existing literature and data including research reports and the number and location of nests, and eggs addled in past years;
- A comprehensive field study to determine:
 - the size of Vancouver's Canada Goose population including breeding geese, goslings and, the proportion of resident and cackling geese, and how it varies through the seasons;
 - the seasonal distribution of the population; and
 - the seasonal behaviour of the population (e.g., nesting, raising, young, feeding and loafing)

REQUEST FOR PROPOSALS NO. PS20210269
CONSULTANT SERVICES FOR CANADA GOOSE POPULATION ASSESSMENT STUDY

- Data and landscape analysis to determine the ideal size of the goose population suitable for Vancouver;
- Documented impacts to the landscape related to goose activity (e.g., damage to turf and irrigation equipment, shoreline erosion, excessive droppings);
- Areas of high conflict between geese and humans (with and without dogs);
- Recommendations for appropriate management approaches at sites across the city;
- Population projections under potential management scenarios; and
- Review and collation of additional data, images, observations and conclusions in a report.

An optional, second element of this work is to use the data collected in the population assessment to develop a Canada Goose Management Plan that meets all of the requirements for population management permits issued by the Canadian Wildlife Service. The scope of work for this element, in addition to the assessment scope above, includes:

- Detailed descriptions of the areas affected including land use, ownership and size summarized on a map;
- Recommendations for areas where geese should be accommodated and excluded;
- An evaluation of the duration, nature and root causes of the problem;
- A management plan guiding short- and long-term population management actions and meeting all of the requirements to obtain federal permits for population management.

The contractor will be responsible for the following tasks:

TASK 1 - Meet with Park Board planning and wildlife staff (Mid-June, 2021)

The Park Board's wildlife technician has multi-year data on nest locations and numbers, eggs added and other information. Staff have compiled some relevant research, media and information from staff across the Park Board to be shared with the consultant. Staff can orient the consultant to key areas in the city where geese and their impacts have been observed.

TASK 2 – Plan and Implement a field study (Mid-June – mid-April 2022)

The consultant will be responsible for planning and implementing a field study, including timing and locations of study, and necessary equipment. Park Board staff can advise on data requirements and provide access to city sites.

The Park Board requires field studies including, but not limited to:

- The number of breeding and overwintering geese and goslings in the city, including numbers of Cackling, resident and migrating sub-populations;
- Distribution of geese, including sub-populations;
- Changes to number and distribution of geese through the day (e.g., do the move from one location in the morning to others in the afternoon/evening) and through breeding, summer and winter seasons and their behaviour;
- Nesting sites not yet known to the Park Board;
- Landscape impacts of the geese (e.g., damage to turf and infrastructure, high concentrations of droppings, shoreline erosion)
- Conflicts between humans (with and without dogs) and geese (e.g., goose aggression, feeding or other harassment by humans); conflicts between other wildlife and geese

TASK 3 – Data analysis and mapping (July 2021- June 2022)

Data analysis should be mapped where practical and include, but not be limited to:

REQUEST FOR PROPOSALS NO. PS20210269
CONSULTANT SERVICES FOR CANADA GOOSE POPULATION ASSESSMENT STUDY

- Existing information on population from Park Board staff and other sources
- Total number of geese and numbers in each sub-population
- Distribution of geese generally and distribution of sub-populations
- Areas of the landscape most impacted
- Areas of greatest human/goose conflict
- Areas of ideal habitat not populated by geese (and why)
- Ideal goose population size for Vancouver
- Population projections under suggested management scenarios
- Number of geese dying annually
- Landscape impacts
- Maps of where geese should be accommodated and excluded
- Photographs of observations

Task 4 – Reporting and recommendations (July 2022)

A final report summarizing the study should include:

- Summary of data analysis and mapping
- Suggested landscape modifications for specific sites in affected parks
- Recommended areas of goose accommodation and exclusion
- Population projections
- The ideal number of geese that can be maintained in the City of Vancouver, limiting human conflict, landscape impacts and displacement of other species
- Recommended means of reducing population number if required and maintaining ideal population size

*Task 5 (Optional) – Preparation of a Canada Goose Management Plan

- The plan would include all elements of Task 4 in addition to meeting requirements of the Canadian Wildlife Service for population management permits including:
 - Detailed descriptions of the areas affected including land use, ownership and size summarized on a map;
 - Recommendations for areas where geese should be accommodated and excluded;
 - An evaluation of the duration, nature and root causes of the problem;
 - A management plan guiding short- and long-term actions and meeting all of the requirements to obtain federal permits for population management.

****NOTE:*** This task does not require completion of Task 4 in addition; all elements of Task 4 are included in Task 5 if the option to create the Management Plan is selected.

The consultant team's expertise and resources should include:

- Expertise in biology or a related field
- Experience with bird population counts, Canada Geese specifically an asset
- Familiarity with federal and provincial wildlife management and regulations and permit requirements an asset
- Experience with field research and related reporting

14.1 The Consultant will not assign this Agreement in whole or in part except with the prior written consent of the City, which consent will not be unreasonably withheld, delayed or conditioned. Any attempt to assign this Agreement without such consent will be void and of no effect. However, the Consultant will be permitted to assign this Agreement to any entity into, by or with which the business or assets of the Consultant have been merged, acquired, consolidated or re-organized, or any entity which purchases all or substantially all of the business or assets of the Consultant, provided always that the Consultant first provides the City with:

- (a) reasonable particulars of the transaction (permitting the City to independently verify the nature of the transaction); and
- (b) a legally enforceable covenant from the new entity confirming that it is legally bound to the City to perform this Agreement.

15.0 CONFIDENTIALITY

15.1 In the course of or for the purpose of performing the Services, the Consultant will obtain or have access to information, including but not limited to technical information, financial information and business information, which is confidential to the City, and is the exclusive, world-wide property of the City and/or its suppliers and customers (collectively "**Confidential Information**"). Excluded from the definition of Confidential Information is:

- (a) information which is in, or becomes part of, the public domain, not due to the Consultant's breach of this Agreement or the Consultant's actions;
- (b) information which was previously in the Consultant's possession and did not originate from the City; and

- (c) information which lawfully becomes available to the Consultant from a third party not under an obligation of confidence to the City regarding such information.
- 15.2 The Consultant will not use or reproduce the Confidential Information other than as reasonably required for the performance of the Services under this Agreement. The Consultant will not, without the prior written consent of the City given on such terms and conditions as it prescribes in its sole discretion, disclose or allow access to the Confidential Information to any person, except to only those of its own employees who have a need to know the Confidential Information solely for the provision of the Services, and who have been advised of its confidential nature and have agreed to be bound by the confidentiality and use-restriction provisions in this Section 15.0. The Consultant will take all reasonable precautions against the Confidential Information being used by or disclosed to any unauthorized person.
- 15.3 If the Consultant is required by any law, legal proceeding, or court or government order, to disclose any Confidential Information, the Consultant shall limit its disclosure of such Confidential Information to the extent and purpose legally required, provided that prior to any disclosure the Consultant will promptly notify the City in writing of the existence and the terms, and conditions of the required disclosure and, at the City's request and expense, co-operate in obtaining a protective order or other assurance that confidential treatment and restrictions on use will be accorded such Confidential Information.
- 15.4 The City is subject to the *Freedom of Information and Protection of Privacy Act* (British Columbia), which imposes significant obligations on the City's contractors to protect all personal information acquired from the City in the course of providing services to the City. The Consultant confirms and acknowledges its obligations to comply with all obligations imposed on it pursuant to the *Freedom of Information and Protection of Privacy Act* (British Columbia) with respect to all personal information received from the City whether as part of the Confidential Information or otherwise.
- 15.5 The Consultant acknowledges that in the event of a breach by the Consultant or any of its employees of their respective confidentiality obligations pursuant to this Section 15.0, damages alone would not be an adequate remedy. The Consultant therefore agrees with the City that, in addition to and without limiting any other right or remedy it may have, the City will have the right to an immediate injunction or other available equitable relief in any court of competent jurisdiction enjoining any threatened or actual breach of such obligations.
- 15.6 The Consultant shall return all copies of the Confidential Information to the City, in all tangible forms and media, and delete all Confidential Information resident in any databases or systems, upon the earliest of the following dates:
- (a) completion of the Services;
 - (b) expiration or earlier termination of this Agreement; and
 - (c) written request of the City for return of the Confidential Information;

provided that the Consultant shall have the right to retain one copy of the Confidential Information solely for archival purposes or as otherwise may be required by law, subject to its ongoing confidentiality and restricted use obligations.

- 15.7 This Section 15.0 shall survive the expiration or earlier termination of this Agreement.

16.0 NO PROMOTION OF RELATIONSHIP

- 16.1 The Consultant will not disclose or promote its relationship with the City, including by means of any verbal declarations, announcements, sales, marketing or other literature, letters, client lists, websites, internet domain names, press releases, brochures or other written materials (the

“Communications”) without the express prior written consent of the City (except as may be necessary for the Consultant to perform its obligations under this Agreement).

16.2 Furthermore, the Consultant undertakes and will cause all of its Sub-contractors to undertake not to disclose or promote its relationship with the City in any Communications in a manner which could suggest or create an association, express or implied, between the Consultant and the City. Without limiting the generality of the foregoing, the Consultant will not refer to or use any website, domain name, official emblem, logo or mascot of the City of Vancouver in any Communications, without the express prior written consent of the City.

17.0 DELIVERABLES

17.1 As a result of or as part of providing the Services, the Consultant may receive, create, produce, acquire or collect one or more of the following:

- (a) products, goods, equipment, supplies, models, prototypes and other materials;
- (b) information and data;
- (c) reports, drawings, plans, designs, depictions, specifications and other documentation; and
- (d) any other items identified in this Agreement as deliverables;

(collectively, the **“Deliverables”**).

17.2 Deliverables are deemed not to include:

- (a) any item not required to be produced by the Consultant or supplied to the City as part of or together with the Services, provided that if the City has paid or is liable to pay for any portion of such item’s creation, production, acquisition or collection then such item shall be deemed to be a Deliverable;
- (b) any item produced as a result of the Services, which is specified in this Agreement as being excluded from the Deliverables category; and
- (c) any item which pre-existed the effective date of this Agreement, that is owned by a third party or that is used by the Consultant as part of the services provided to any of its other customers (the **“Pre-Existing Materials”**).

17.3 All Deliverables will be owned solely by the City unless otherwise expressly provided herein. The City shall have the complete and unfettered right to use and deal with the Deliverables for its own benefit in any way it sees fit without limitation, and without accounting in any way to the Consultant.

17.4 The Consultant will keep accurate records and provide regular reports to the City about the Deliverables as they are created or acquired, and grant to the City access to the Deliverables at all times on reasonable notice. The Consultant will treat each Deliverable as subject to the confidentiality provisions set out in Section 15.0 unless advised otherwise by the City.

17.5 Each Deliverable, as to the whole or that portion of the Deliverable then existing, will be delivered by the Consultant to the City on the earliest of each of the following events:

- (a) the date specified in this Agreement for the delivery of such Deliverable;
- (b) immediately on the date of expiration or sooner termination of this Agreement; or
- (c) the date specified by written notice of the City requesting delivery of all or any part of the Deliverable.

- 17.6 The Consultant transfers to the City, free of all liens and encumbrances, ownership of each Deliverable, and assigns all of its world-wide present and future rights, title and interest in and to each Deliverable, including copyright, effective as of the date of creation or acquisition of such Deliverable by the Consultant. The Consultant irrevocably waives, in favour of the City, all moral rights in the Deliverables. The Consultant will obtain from its employees and any independent contractors, all required assignments and releases of intellectual property, and waivers of moral rights, in the Deliverables. The Consultant will not assert any rights to or interests in, or apply for or register any copyright or other rights or interests in, the Deliverables, or assist any other person in doing so. The Consultant shall provide to the City, during and after the term of this Agreement, any reasonable assistance required for the City to obtain, perfect and enforce its ownership of and rights in the Deliverables, including without limitation execution of assignments and transfers of the Deliverables. This Section does not apply to Pre-Existing Materials.
- 17.7 The Consultant will not incorporate any Pre-Existing Materials in any Deliverable without first:
- (a) advising the City, in writing, of the nature of the Pre-Existing Materials and their proposed use and obtaining the City's written consent to do so;
 - (b) acquiring from each third-party owner of such Pre-Existing Materials, a fully paid-up, perpetual, non-exclusive license, in writing, for the City to use the Pre-Existing Materials as part of the Deliverable; and
 - (c) granting, in writing, to the City with respect to such Pre-Existing Materials that the Consultant owns, a fully paid-up, perpetual, non-exclusive license to use the Pre-Existing Materials as part of the Deliverable.
- 17.8 The Consultant represents and warrants that the Deliverables will not infringe, misappropriate or misuse any copyright, patent, trade-mark, trade secret, or confidential or proprietary information of a third party. The Consultant shall defend, indemnify and hold the City harmless from and against any and all damage, liability, cost and expense incurred by the City in connection with any claim by a third party that a Deliverable infringed, misappropriated or misused its copyright, patent, trade-mark, trade secret, or confidential or proprietary information.

18.0 NOTICES

- 18.1 Any notice required or permitted to be given to the Consultant will be sufficiently given if delivered in writing by the City's Project Manager to the Consultant's Project Manager personally or, if mailed, by registered mail to the last known address of the Consultant.
- 18.2 Any notice required or permitted to be given to the City will be sufficiently given if delivered in writing by the Consultant's Project Manager to the City's Project Manager personally or, if mailed, by registered mail to City of Vancouver at 453 West 12th Avenue, Vancouver, B.C., V5Y 1V4 (addressed to the attention of the City's Project Manager).

19.0 NO CONFLICT OF INTEREST

- 19.1 The Consultant agrees that during the Term the Consultant will not engage in any conduct which would or might put the interests of the City into conflict with the interests of any other person, whether or not a client of the Consultant's. Without limiting the general scope of this Section 19.1 and by way of example only, the Consultant is prohibited from and will not provide any services which assist or could be seen to be assisting any person in responding to a request for proposal or invitation to tender, or otherwise giving that person an unfair competitive advantage over other proponents or tenderers responding to a request for proposal or invitation to tender by the City. The Consultant now acknowledges that a breach of this Section 19.1 could constitute not only a breach of this Agreement but also a violation of the *Competition Act* (Canada) and *Criminal Code* of Canada, and accordingly, could be punishable as a crime (as well as a breach of contract).

- 19.2 The Consultant now confirms and warrants that there is no officer, director, shareholder, partner or employee or other person related to the Consultant's organization (a "**person having an interest**") or any spouse, business associate, friend or relative of a person having an interest who is:
- (a) an elected official or employee of the City; or
 - (b) related to or has any business or family relationship with an elected official or employee of the City, such that there would be any conflict of interest or any appearance of a conflict of interest in the administration of this Agreement or the performance of the Services.

20.0 NON-RESIDENT WITHHOLDING TAX

- 20.1 If the Consultant is a non-resident of Canada as defined in Canadian income tax legislation, the City may withhold from all monies payable under this Agreement such amounts as set out in Canadian income tax legislation, unless a Canada Revenue Agency waiver has been provided to the City within the time limit required under the Canada Revenue Agency administrative guidelines as in effect from time to time and, in any event, prior to payment of an invoiced amount.
- 20.2 The City shall receive full credit under this Agreement for monies withheld as of and from the date of the withholding and no interest will be payable by the City on sums withheld and later paid directly to the Consultant.
- 20.3 The Consultant shall indemnify the City for any losses, damages or expenses incurred by the City as a result of the Consultant's failure to properly disclose to the City its non-resident status, as defined in Canadian income tax legislation.

21.0 COMPLIANCE WITH LAW

- 21.1 The Consultant will comply with the City of Vancouver License By-law and maintain a valid business license throughout the duration of this Agreement.
- 21.2 The Consultant agrees that it will during the Term comply with all Applicable Laws.

22.0 GOVERNING LAW AND RESOLUTION OF DISPUTES

- 22.1 This Agreement will be governed by the laws of the Province of British Columbia and the courts of British Columbia will have exclusive jurisdiction to determine all disputes arising under this Agreement and the Parties now irrevocably agree to submit all disputes to the courts of British Columbia for resolution.

23.0 INDEPENDENT CONSULTANT

- 23.1 This Agreement is a contract for services and the Consultant, its permitted Sub-contractors, and the officers, directors, shareholders, partners, personnel, affiliates and agents of the Consultant and its permitted Sub-contractors are not, nor are they to be deemed to be, partners, appointees, employees or agents of the City.
- 23.2 The Consultant will not represent to anyone that the Consultant has any authority to bind the City in any way or that the Consultant is an employee or agent of the City.

24.0 INDEPENDENT LEGAL ADVICE

- 24.1 The Consultant acknowledges that the Consultant has been given the opportunity to seek independent legal advice before executing this Agreement.

25.0 TIME FOR PERFORMANCE

25.1 **Time of the Essence.** Time shall be of the essence of this Agreement.

25.2 **Unavoidable Delay.** Notwithstanding Section 25.1, except for the performance of obligations to pay money, the time periods for the City and the Consultant to perform under this Agreement will be extended for periods of time during which their performance is delayed or prevented due to an Unavoidable Delay. For the purposes of this Section, an “**Unavoidable Delay**” means any circumstances beyond the reasonable control of the party trying to perform (such as, for example, acts of God, war or other strife or governmental action) but expressly excludes any and all delays caused by the Consultant’s lack of financial resources; the Consultant’s insolvency ; strikes, lockouts or other withdrawals of services arising out of any labour dispute involving the City, the Consultant or a Sub-contractor; or governmental action taken in the enforcement of any law specifically against the Consultant or its Sub- Consultants. If an Unavoidable Delay occurs, the non-performing party will, as soon as possible after the occurrence of the Unavoidable Delay, give written notice to the other party describing the circumstances preventing continued performance and the efforts being made to resume performance of its obligations under this Agreement.

26.0 GENERAL

26.1 **No Waiver.** No action or failure to act by the City shall constitute a waiver of any right or duty under this Agreement, or constitute an approval or acquiescence in any breach hereunder, except as may be specifically agreed in writing by the City.

26.2 **Severability.** The invalidity, illegality or unenforceability of any portion or provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void portion or provision shall be deemed severed from this Agreement and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion or provision held to be void. The Parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken position.

26.3 **Remedies Cumulative.** The remedies of the Parties provided for in this Agreement are cumulative and are in addition to any remedies available to the Parties at law or in equity. No remedy will be deemed to exclude or restrict the right of a Party to any other remedies against the other Party and a Party may from time to time have recourse to one or more of the remedies specified in this Agreement or at law notwithstanding the termination of this Agreement.

26.4 **Further Assurances.** Each Party shall execute such further and other documents and instruments and do such further and other acts as may be necessary to implement and carry out the provisions and intent of this Agreement.

26.5 **Entire Agreement.** The Contract Documents constitute the entire agreement between the Parties with respect to the subject matter hereof, and supersede all previous communications, representations and agreements, whether oral or written, with respect to the subject matter hereof.

26.6 **Amendment.** This Agreement shall not be amended except as specifically agreed in writing by both the City and the Consultant.

26.7 **Joint and Several Liability of Joint Venture Participants.** If the Consultant is a joint venture of two or more entities, it is understood and agreed that the grants, covenants, provisos, claims, rights, powers, privileges and liabilities of the entities who comprise the Consultant shall be joint and several.

- 26.8 **Schedules and Appendices.** The schedules and appendices attached hereto are incorporated by reference in and form an integral part of this Agreement.
- 26.9 **Set-Off.** The City may at its option, withhold and set-off against any amount owing to the Consultant (whether under this Agreement or otherwise) any amounts payable by the Consultant to the City (whether under this Agreement or otherwise) and the amount of any damages suffered or claims made or to be made by the City as a result of any other claim it may have against the Consultant, whether such claim is at law or in equity or tort or on any other basis.
- 26.10 **Enurement.** This Agreement shall enure to the benefit of and be binding upon the City and the Consultant and their respective successors and permitted assigns.
- 26.11 **Execution.** This Agreement may be executed in one or more counterparts each of which will constitute an original and together will constitute one and the same Agreement. This Agreement may be executed by the Parties electronically or by facsimile and if so executed and transmitted, this Agreement will be for all purposes as effective as if the Parties had delivered an executed original Agreement.

As evidence of their agreement to be bound by the above contract terms, the City and the Consultant each have executed this Agreement as of the day and year first above written.
