

REQUEST FOR PROPOSAL “RFP” NO. PS20211311
CONSULTING SERVICES FOR STILL CREEK SEWER AND WATERSHED
BASELINE ASSESSMENT

QUESTIONS AND ANSWERS NO. 1

ISSUED ON: November 16, 2021

Q1	<i>Regarding Part B- Scope of Work, Section 2.3, Optional Task # - Supplemental Temporary Sewer Flow Monitoring by Consultant, does the City allow flow monitoring in Storm Trunk Sewers?</i>
A1	Flow monitoring would be allowed in any suitable, City-owned sewer. Monitoring cannot be installed in (or by accessing) Metro Vancouver infrastructure.
Q2	<i>Regarding Part B- Scope of Work, Section 2.5 Available Data; Hydrologic and hydraulic data, criteria, and standards: How does the City want us to use Still Creek hydrometric data at E 22nd and at Vancouver Film Studio?</i>
A2	The intent is for calibration/validation of the 1-D Still Creek model.
