

REQUEST FOR PROPOSALS NO. PS20220506

SUPPLY AND INSTALL SINGLE FAMILY + LANEWAY WATER METER INSTALLATION PROGRAM  
2022

QUESTIONS AND ANSWERS NO. 2

ISSUED ON JUNE 13, 2022

<b>Q1</b>	Regarding the City's response replacement of the service line at 3608 10th Av W, it is difficult to provide an accurate price in the proposal as there are too many unknowns with what is required within the City's specification and the existing location (i.e. length of service run, other potential conflicting utilities, traffic control, etc.). Would the City agree to modifying this line item to a site survey item and then the successful proponent will provide an accurate quote to complete the work at that time?
<b>A1</b>	<b>Yes, we would be willing to modify the line item to a site survey item. See Addendum No. 2 for details.</b>
