APPENDIX 1
SCOPE OF WORK

1.0 GENERAL

The City of Vancouver invites quotations from qualified vendors to provide construction services to repair approximately nineteen (19) utility cuts within the sidewalks of Gastown. Details of the City's objectives, requirements and tasks are set out in the following Sections.

2.0 KEY DATES

Potential vendors should note the following key dates:

Proposal Circulated	Aug 13, 2021
Deadline for Enquiries	Aug 27, 2021
Closing Time	Sep 02, 2021
Tentative Award Date	Sep 17, 2021

3.0 BACKGROUND

The Gastown area is generally paved with a combination of brick and mortar sidewalks and unit pavers in the vehicle lanes. There are numerous utility cuts that are currently repaired in asphalt which degrade the public realm's appearance. A near-term repair strategy is needed to progress the current and future needs for utility cut repairs in the area. This project intends to trial repairs to nineteen (19) and one (1) provisional utility cuts to match the existing paver treatments. The trial will help the City better understand the budgets, resources, skills, and practices required for this work and help inform a long-term repair strategy for the broader quantity of utility cuts in Gastown.

4.0 ASSIGNMENT SCOPE

Successful vendor will procure specific product - clay tiles/pavers (specification attached in the design package) and install the pavers. Nineteen (19) locations have been selected based on a review of service requests, proximity to tourist attractions, and input from the Gastown Business Improvement Association (Gastown BIA). The locations are detailed in Appendix 2, 1.0(a). The intent is to match the existing fit and finish as best as possible using a small variety of products and methods to learn what proves best for ongoing repairs in the Gastown area.

In addition to the nineteen (19) utility cuts identified in Appendix 2, 1.0(a), vendors will offer quotation as options to fix individual loose bricks/pavers. The construction associated with this scope is included as a provisional item.

(a) Open Site

The Place of the Work and adjacent work areas associated with the Project are, or are part of, an “open site” and the Work will be performed on a “no strike/no lockout” basis. Accordingly, the Contractor and its Subcontractors, as well as the City and other contractors, may employ labourers at the Place of the Work who are members of a trade union, including a trade union affiliated with a Trade Union Council or who are members of another trade union, or who are not members of a trade union.

(b) Labour Disruptions

The Contractor will use its best commercial efforts to ensure that no Site Labour Disturbance shall occur and the Contractor:

(i) will only retain Subcontractors for the Work whose employees are either:

- (1) certified in British Columbia to be represented by a trade union and subject to a collective agreement which does not expire until after the expected date of Total Performance of the Work; or
- (2) not certified to be represented by a trade union; and

will require such Subcontractors to only retain subcontractors and suppliers whose employees are either certified in British Columbia to be represented by a trade union and subject to a collective agreement which does not expire until after the expected date of Total Performance of the Work or not certified to be represented by a trade union; and

(ii) represents and warrants that, with respect to any employees of the Contractor who may work at or near the Place of the Work and who are certified in British Columbia to be represented by a trade union and subject to a collective agreement, such collective agreement to which such employees are subject does not expire until after the expected date of Total Performance of the Work;

but if any Site Labour Disturbance occurs and does or may adversely impact the City, the Work or the Contract Time, the Contractor will use its best commercial efforts to ensure that the length and extent of such impact is minimized (including without limitation by cooperating with the City in any measures it may take to ameliorate such impact) and the Contractor will be liable to the City for any such impact.

(c) Required for Union Contractors

Without limiting the generality of Section (b) above, if the Contractor, or any Subcontractor, proposes to employ labourers at the Place of the Work who are members of a trade union, including a trade union that is affiliated with a Trade Union Council authorized to bind its member trade unions, then the Contractor must first submit to the Consultant:

The City shall have the right, by written notification to the Contractor, to require the removal from the Project of any employee of the Contractor or a Subcontractor or employee of a Subcontractor of the Contractor who is incompetent, untrained, acts in an unsafe manner, is disorderly or is otherwise unsatisfactory, or who causes a breach of the terms of this Contract. Any such employee or Subcontractor shall be immediately removed from the Place of the Work by the Contractor and shall not be employed again on the Project without the prior written approval of the City.
