

**REQUEST FOR PROPOSALS "RFP" NO.PS20190912-
IN RESPECT OF ASPHALT, CONCRETE AND ROCK CRUSHING SERVICES
QUESTIONS AND ANSWERS NO.1**

ISSUED ON: September 6, 2019

Q1	Can you arrange a time to have a look at the existing piles? We'd like to see the current size of the materials. Can this be done this week
A1	A site visit cannot take place.
Q2	Is there an option for a second shift? Or an option to extend the shift outlined in the RFP?
A2	There is an option to extend a shift. There is flexibility in start and finish times.
Q3	Who monitors the material coming in, to ensure it is within the correct size for crushing, and clean of any foreign materials like rebar?
A3	The weigh scale person by load, the site Superintendent daily, and occasional engineering inspector, and concerns raised by the service provider. There will be some debris and rebar to contend with.
Q4	Is billing by optical laser scale acceptable?
A4	No.
Q5	On page C-16, Table 3 has the same question in both columns. Is that correct?
A5	Refer To Amendment No.1
